NUMBER 176

NO FOUNDATION FOR REPORT OF ATTEMPT ON HARDING'S LIFE

Washington, July 27.—Department of Justice agents two months ago investigated a reported plot to assassinate President Harding and found there was absolutely no truth in the report and no foundation for the rumors, Wm. J. Burns, chief of the Bureau of Investigation, declared today.

The department had been informed at the same time of a plot to kill Attorney General Daugherty, but this also proved without foundation, Burns said.

For a time, in view of the report that reached him, authorities investigated the activities of Philip Kurlinsky and Sophie Bushwick, alleged anarchists, Burns said.

DUNDEE WON TITLE AGAIN LAST NIGHT; AN EASY WINNER

New York, July 26.—Johnny Dundee won the featherweight championship of the world here tonight when he earned the referee's decision over Eugene Criqui, French war hero and conqueror of Johnny Kilbane, in 15 rounds.

The New Yorker wrested the crown from the head of the Frenchman with such ease that the vast crowd of more than 40,000 who witnessed the fight were dazed. Twice Dundee knocked the gallant little man from across the sea down, dazing him and having him all but out. From the very first round when Criqui went down for the count of eight the fight was one-sided, so much so, in fact, that the referee appealed to Criqui's seconds to stop the bout.

But they refused and Criqui went reeling and staggering around the ring during the closing rounds, fighting as game a fight as has ever been seen in a New York ring. Hopelessly beaten, almost helpless, he carried on just as he had on the field at Verdun where his jaw was shot away by a German machine gun bullet.

Vainly he tried, seeking to land those swings that had won the world's championship from Kilbane in his last fight. But this was a different opponent from the slow Kilbane. It was Dundee, the flashing, brilliant one who had been seeking a chance at Kilbane for 13 years, ever since he fought a 20-round draw with the Cleveland.

PICNIC AT CURWENSVILLE

The Vacation Daily Bible School scholars to the number of a couple of hundred picnicked at the Poe Wees Nest today. A fine time was had by all. The kiddies and the baskets were transported to Curwensville by automobile at 9:30 today, this arrangement being in the hands of Reuben Neuling, the well known Gulich township military genius and strategist, who made a neat job of it. Cars will leave here about 4:15 this evening to bring the kiddies home. Join the procession.

Miss Hetch of State College, Miss Miller of Len Hope, Miss Clark and Mrs. B. W. Wilmoth, of Glen Campbell, spent Thursday with Mr. and Mrs. L. G. Darr.

WOMEN SURE ARE HARD TO CONVINCE, ESPECIALLY WHEN THEY ARE IRONING; HOUSE AFIRE, HERE'S ONE WHO TOLD INFORMANT "MIND YOUR OWN BUSINESS"

Cooper township women are more or less peculiar, while some of them are real "set in their ways." One of this latter kind is Mrs. Andrew Dahl, of Winburne. Yesterday morning about 10:30 o'clock, neighbors living some distance across the hollow from the Dahl home noticed a great deal of smoke about the roof called Mrs. Dahl on the phone and told her they believed her house was on fire. Mrs. Dahl had a big ironing ahead of her and as she was working pretty close to a red hot range was somewhat heated up.

The call to the phone while in the midst of that ironing, which had gotten on her nerves anyhow, did not serve to lower the temperature in the Dahl home and when the information, as stated above, was given her Mrs. Dahl bristled right up and said: "I

THREE MAKE NIGHT TRIP OF CHICAGO TO NEW YORK BY AIR IN EIGHT HOURS

Over Night Commuting Practicable Say Men Who Made Non-Stop Trip While We Slept.

RETURN SATURDAY

Garden City, N. Y., July 27.—Over night commuting by airplane between New York and Chicago has been established as practicable by an eight and one half hour non-stop flight between the two cities.

The airplane, piloted by Edward Stinson, well known commercial aviator and carrying Charles Dickinson, President of the Aero Club of Illinois and Arch Grey, mechanic as passengers, reached here this morning. It hopped off from Chicago at 11:00 last night, central standard time. The three flyers will stay at a local hotel until tomorrow, when they plan to hop off on a return trip. The return will be by daylight.

The flight was made in an all metal German Junker monoplane, capable of making 120 miles an hour. An average of 100 miles was maintained on the flight, according to Stinson.

Gunman And Woman Kill Two Policemen In New York City

New York, July 27.—A gunman and a screaming woman shot two police to death on the running board of a taxicab on the upper east side here last night.

The bodies of the two patrolmen were found in a gutter where they had rolled and died before they could reveal the mystery of the strange shooting. The taxicab dashed away and was lost in the maze of after theatre traffic on Broadway. Hundreds of police are prowling today through the Bowery Dives for the murderers and the underworld is in a turmoil. All ferries and railroad stations are guarded to prevent the escape of the death car.

HARDING BACK FROM TRIP TO ALASKA; NOW AT SEATTLE

Seattle, Wash., July 27.—President Harding came home today to report to the American people the result of his official visit of investigation to Alaska. He was prepared in a speech to be delivered here late today to go fully into the Alaskan situation from the viewpoint of the government and of the American people as a whole, and as well from the standpoint of the Alaskans themselves.

DOLLINGS COMPANY IN THE LIMELIGHT IN MANY COURTS

Indianapolis, Ind., July 27.—Governor McCray today instructed Attorney General Leach to investigate activities of the R. L. Dollings Company of Indiana, fiscal brokers now in the hands of a receiver.

The action was taken to protect Indiana investors, who are reported to hold millions of dollars worth of stock in the Dollings company and its subsidiaries, the Governor said.

All branch offices of the company in Indiana are closed by order of Bert A. McBride, Receiver.

Philadelphia, Pa., July 27.—An involuntary petition in bankruptcy was brought against the McCambridge Company this morning by three of its creditors.

The McCambridge Company is a subsidiary of the R. L. Dollings Company.

The petition was filed in the United States District Court upon the admission of the company, which manufactures plumbing accessories, of insolvency. It was capitalized for \$400,000. No statement was made in the petition as to its liabilities and assets.

Philadelphia, July 26.—Thomas Raeburn White of Philadelphia, was today appointed receiver for the R. L. Dollings company of Pennsylvania by Judge Dickinson of the United States district court.

A receivership was sought by stock holders who alleged that officers of the Dollings company paid dividends to subsidiary concerns that did not earn them. Mr. White was placed under \$100,000 bond.

A temporary receiver was appointed today by the Chester county court for the American Bronze company of Berwick, Pa., a subsidiary of the Dollings company. Robert O. Sperry, general sales manager of the Bronze company, was named receiver.

GERMANY'S INCOME ONLY TWO PER CENT OF HER EXPENSES

Berlin July 27.—Germany's income in June was only two percent of its expenses, the Tageblatt declared today and ironically advocated abandonment of taxes in favor of the printing press.

Germany's sixty huge presses continue to grind out billions of marks a day while the purchasing power of the paper currency approaches the absolute zero.

The Cuno Government is being made the scape-goat and political changes are believed imminent.

London, July 27.—German mail passed the equivalent of 1,000,000 to the dollar in a steady descent on the money exchange this afternoon, being quoted at 4,000,000 to the pound sterling.

Glenn Moore of Rochester, N. Y., is visiting his parents, Mr. and Mrs. L. C. Moore on West Third avenue.

He Proves It

J. H. Van Norman, loop-the-loop artist, performed this stunt at Bridgeport, Conn., to prove that the rear seat of an auto is the more dangerous. "When a pivoted body is suddenly stopped centrifugal force overcomes gravity," he says, explaining why he is catapulted over the bike.

METHODIST BAN ON AMUSEMENTS LIFTED BY NEW AGREEMENT

Chicago, July 27.—The Methodist Episcopal lay on theatre attendance and dancing will be lifted under plans of re-amalgamation of the north and south church, it was declared here today by Rev. E. Robt. Daring, Editor of the North Western Christian Advocate.

Daring said the constitution provides the union will allow actors and dancing teachers to join the church. The amalgamation is a "practical certainty" as a result of the Cleveland Conference, he asserted.

FIFTY-THIRD ANNUAL PICNIC

The fifty-third annual Frenchville picnic will be held in the beautiful grove near the church in that village on Thursday, August 22d, and is ready promises to be the biggest and best picnic in the long series of such events at this popular point.

The Rolling Stone and Deer Creek bridges will both be open to traffic this year and will, thus make it possible for the usual large crowds from the Cooper and Morris country, the Philipsburg, Osceola and Houtzdale region to get across the river without traveling so many miles around as has been required since these bridges went out several years ago and this fact alone will guarantee an exceptionally large crowd at Frenchville this year.

ILLICIT LIQUOR MANUFACTURERS BITING THE DUST

County Detective Snyder and State Troopers Barker, Pecker and Hahy are continuing their efforts to dry up the illicit booze business around DuBois. Yesterday they had Anthony Kumetis and Staniel Nendza, DuBois residents, before the bar of Alderman Bogden's court on a charge of violating the liquor law.

At the Krumetis home the officers found a still, a coil, one-half p. liquor and destroyed 30 gallons of mash, after preserving a ju full to be used as evidence.

A search of Nendza's place resulted in uncaching 30 gallons of grain mash, 35 gallons of elderberry blow wine and three boilers.

The alleged moonshiners were held in \$1,000 bail each for court.

STINNES ALLEGED MEETING KAISER CAUSES GUESSES

Antwerp, July 27.—Holland and Belgium heard further rumors of an impending monarchistic coupe in Germany today when it was reported that Hugo Stinnes had been seen at Dorn, visiting ex-kaiser Wilhelm Hohenzollern.

Do for Helfferich, a noted pan-German was among those who visited the former monarch early in July and Prince Ethel Frederick, who keeps in close touch with the Junkers, has been several times to see his father.

The visitations are foundations for rumors for what it believed to be an impending coupe in Germany, having as its object the restoration of the former Kaiser to the throne.

An attempt is being made to explain the report that Stinnes had been seen at Dorn by saying it was another visitor greatly resembling the industrial Baron.

STATE POLICE MADE 6,386 ARRESTS IN LAST SIX MONTHS

Harrisburg, Pa., July 27.—More than one third of the arrests made by State Police during the first six months of 1923 were for violations of the liquor laws, it was announced today. Figures of June 30 show 6,386 arrests were made for infraction of the laws, of which 2,263 were for "dry" law violations.

PRIEST RECEIVES SENTENCE OF TWO YEARS IN PRISON

Denver, July 26.—Father Walter A. Grace, Arvada priest, was sentenced to two years in Federal prison on each of two counts for forgery of applications for liquor permits this afternoon.

Mrs. L. C. Moore spent Thursday in Crampton.

Miss Grace Hoyt and Miss Mackie visited friends in Curwensville Wednesday.

CURWENSVILLE IS GOING TO HAVE A BIG LABOR DAY CELEBRATION

Chamber of Commerce Has Asked the Yellow Dogs to Put 'er Over and They Took Job.

WILL BE A SUCCESS

Chief Cur Grant Norris' signal whistle was sounded last evening for an important bone gnaw at Curwensville Kennel of Yellow Dogs and when the time arrived to assemble around the sacred relic "yellow dogs" to the number of more than one hundred, from all the surrounding territory were present to participate in the ancient ceremony. Among the number was a delegation of half a dozen or so from Clearfield. In this delegation were three vagabond curs who were admitted to membership. There were Joe Anderson, Fred Pilkington and Jack Platt. They got by with it in good shape and made quite a success of their first running with the pack.

At this meeting the matter of the observance of Labor Day in Curwensville was discussed. "Our sister townspeople have long felt that as they have been contributing largely to the success of Clearfield's fairs and fourth of July celebrations and will send a big delegation to the firemen's convention in August they thought it only fair they should be accorded the privilege of staging the Labor Day celebration for this section."

The Chamber of Commerce felt it was due to the labor organizations and men to have Curwensville recognize their day by putting on a celebration and inasmuch as the Yellow Dogs were made up of all classes of their citizens and many of the "live wire" of the community it was only fair that they should get behind the proposed celebration and put it across.

The proposition was discussed at length and from every angle with the result that it was finally unanimously decided to accede to the request of the Business Men's association by taking over the job of putting Curwensville on the map for Labor Day. Prof. Grant Norris was then chosen general chairman with power to select an advisory committee and all the aids necessary to make the affair the success it will undoubtedly prove to be.

Editor C. A. Stewart of The Progress was present and when called upon stated that he had already discussed the matter of Curwensville's right to stage this Labor Day celebration with a number of Clearfield business men and they all expressed themselves as favoring the idea and

(Continued On Page Two)

EAST END BOY, 9, HAS BEEN MISSING SINCE WEDNESDAY

Ray James, Jr., nine year old son of Mr. and Mrs. Ray James of Bigler avenue, disappeared from his home Wednesday last and his family are much alarmed over his disappearance. The boy is about four feet high, has hazel eyes and brown hair and when he left home was wearing khaki overalls trimmed in blue, was in bare feet and wore no hat.

When last seen he was at the camp of a bunch of gypsies who had been in this section for some time and who left Clearfield that day and traveled through Curwensville and Crampton in the direction of DuBois.

The parents of the boy are of the opinion he was induced to accompany the gypsies and today are the assistance of the local and county authorities in an effort to locate him. Any information concerning the lad will be thankful received by his parents at their home No. 518 Bigler avenue or call Bello's store 723 on the H. & C. phone.

LICK SHOOTERS ARE TAKEN IN VICINITY OF POTTERSDALE

Game Protectors Make Night Capture of Three Perched In Trees; One Tried to Scare Them.

HE WAS TAKEN TOO

For some time past word has been coming to the state game commission and its Clearfield county representatives that more or less illegal hunting was being done by the residents in the northern or down river section of our county and as a result State Game Protector Clair Kelly of DuBois and Deputies W. J. Davis, of Clearfield, and W. J. Delansky, of Houtzdale have been quite active in that section recently.

They gathered information enough to warrant a raid into the territory and on Wednesday night last a party composed of Kelly, Davis, Delansky, E. W. Turley, of Ridgway, and D. A. Zuffall, of Punxsutawney, slipped quietly into the Karthaus country, traveling by automobile and coming in by way of Medix Run. They reached a point between Karthaus and Potterdale, and about six miles from the latter place, on the old Sinnemahoning road, where they located a Ford parked in the brush alongside the road. They were in the vicinity where previous investigation had convinced the game protectors that considerable lick shooting was being done. Using the car for a starting point, the officers quietly circled about through the woods and soon discovered two men on scaffolds erected on a couple of trees commanding views of licks close at hand, waiting for the unsuspecting deer to approach in search of rub.

By the time the men were located it was 9 o'clock. The moving about in the brush of the game wardens had scared the deer away from the licks for that evening and realizing that something had interfered with their plans and prevented the deer from coming into the lick that night, the illegal pot hunters descended to the trees and returned to the car. The game protectors were ready for them when they returned and, getting the drop on them in the darkness, placed them under arrest and took them from the scene.

The men gave their names as Ray and John Kolowoske, 18, who reside with his parent on a farm between Karthaus and Potterdale. As the game protectors were getting ready to load their prisoners into a car to bring them to Clearfield, a life shot rang out and the shadowy form of a third man was glimpsed in the brush about 30 yards distant, but before he had time to fire again, if that was his intention, Zuffall and Kelly had him at the point of their guns and he too was quickly disarmed and placed under arrest.

The third man proved to be Joe Kolowoske, a brother of John, and he

A Fire That Was Fed With Oil, Dynamite and Gasoline

A view of Salamanca, N. Y., shortly after a fire causing \$1,000,000 damage swept through the town. Business and residence sections suffered heavy losses and the city hall was destroyed as oil, gasoline and dynamite were ignited by the blaze.

More Color—More Oriental Designs

Novel designs from Persia, Indo-China, India, Algiers and Madagascar are stamping materials that make the new styles. Colors are more exotic than ever. Flounces and flares prevail.

The Fashion of Knitted Things

Knitted things show the influence of the latest style. The bandanna blouse sweater has a knitted kerchief. The slip-over sweater has a V-neck in the fashionable line. The Tuxedo style has a checkboard pattern in front and is plain in the back.

Curwensville Is Going To Have A Big Labor Day

(Continued From Page One.)

said they would assist to the extent of their ability and opportunity and would endeavor to see that Clearfield people generally did so by foregoing any local celebration and going to Curwensville to swell the crowd there.

Plans for a real celebration are now in the making and will be made known just as soon as they are perfected.

The Yellow Dogs started the ball rolling by each contributing one dollar toward the preliminary expenses of the big time.

LICK SHOOTERS ARE TAKEN

(Continued From Page One.)

had been watching a lick a short distance down the road from the other two.

The men were brought to Clearfield Thursday morning by Messrs. Kelly and Davis and given a hearing before Judge F. G. Chorpennig, who remanded them to jail. The car the lick shooters were using contained splashes of blood and deer hair, mute evidences that they had been successful in killing deer at their lick here before.

When quizzed by the game protectors the men admitted their previous game law violations and named a man in the meat business down that way who had been purchasing their kill from time to time, and after placing he these illegal hunters in jail the game protectors returned to the Karthaus region, where they expected to watch the suspected butcher shop and learn into some other alleged violations in that region.

"The House of Quality"

ODDS AND ENDS AND THINGS

By J. D. C.

A highly interesting article on the "care of the Socially Inadequate" in this county printed in Henry Ford's *Dearborn Independent*, for this week shows that one fifth of every dollar contributed in taxes by the American people is expended for this purpose. Some of the surprising facts contained in this article are given here:

The article, which is styled "The Melting Pot Dross, Takes Fifth of Tax Dollar" is in part as follows:

Here are figures that are more than startling—they are amazing. Out of every dollar raised from taxes by the state as a whole, five fifteen to twenty cents are spent on the "socially inadequate."

The total cost to the states alone of maintaining and caring for persons in state-owned custodial institutions—that is, the feeble-minded, the insane, the blind, the deaf, the criminal, and so on—is approximately \$100,000,000 a year.

No doubt as much more is spent for the same purpose by the cities, the counties and the Federal Government.

And half as much, probably, is spent on the socially inadequate by non-governmental agencies.

This is the direct cost of varying forms of social unfitness or dependency in the United States is no less than a quarter of a billion dollars annually. The indirect cost, no doubt, is many times that amount.

But that takes account of money alone—the ramifying effect of such a volume of unfitness transcends all economic equations.

And it is shown by a scientific study recently made that from the foreign-born population as a whole there goes into custodial institutions for the socially unfit a greater proportion by forty per cent than from the total population of the country. It is nearly sixty per cent greater than goes to them from the native whites born of native parents, and is almost that much greater than the proportion of American Negroes thus institutionalized.

The survey and study were made by Dr. Harry H. Laughlin, of the Carnegie Institution, acting as the Committee on Immigration and Naturalization. The findings are now embodied in an official document published by the committee.

Dr. Laughlin procured detailed reports on inmates from 445 of the 657 state and Federal custodial institutions in the country—that is, penitentiaries, asylums for the insane, homes for paupers, and so on. Each report gave the nativity, parentage and color of inmates.

Each class, native and foreign, is rated as to "quota fulfillment." A inmates comprise a certain percentage of the total population of the country, the figure of the 1910 census being used, as they were the only ones that were available in detail. The same percentage of the total numbers of each class in the country was treated as its "normal" or expected quota. If inmates exceeded persons. The "normal" figure is represented by 100. When there is excess or shortage it is expressed in figures either above or below 100, which is the basis for figuring the percentage.

Negro's Rating High
For example, in 1910 the foreign-born constituted 14.70 per cent of the total population of the country. The survey discloses 210,925 inmates in the custodial institutions covered. The normal or expected quota of foreign-born among them, 14.70 per cent of all, would mean that 25,366 should be of the immigrant class; that is, if its average as to social inadequacy were the same as that of the native population.

"In place of this number," says Dr. Laughlin, "there were actually found 35,613 foreign-born inmates, or 20.63 per cent of the total, which gives a quota fulfillment of 140.39 per cent."

Dr. Laughlin made studies of all classes with respect to the prime types of social inadequacy leading to public institutions. These show some rather surprising facts, both as to the native and foreign-born. Perhaps the most surprising of the survey findings is that having to do with the American Negro. His showing verges on the excellent for all except one form, criminality. But for the Negro's high rating there, the colored population would show a record, for institutionalized social inadequacy, less than one-half that of the average for the population as a whole.

The first form of social inadequacy analyzed in Dr. Laughlin's report is feeble-mindedness. There the Irish make best showing. In fact, their proportion of inmates in institutions for the feeble-minded is only 8.15—the "normal" being, as stated, 100. Swiss immigrants come next, then those from all Asia as a whole, then the American Negro whose quota fulfillment is only 15.31.

The quota fulfillment of all foreign-born is only 81.56. The foreign born from only two countries, Australia and Serbia, show quota fulfillments above the average in feeble-mindedness.

In the matter of crime the countries of Northwestern Europe make the best showing. For nearly all the rate is less than one-half of the average. Immigrants from Switzerland make the best showing for any group—they make an unusually good one in virtually all items. The Irish make second best as to crime. Serbs (from old Serbia) make the worst showing, as for virtually every item. Their record for criminality, as indicated by the proportion of their numbers in the prisons and penitentiaries covered by the report, is 1,400—that is, fourteen times the average for all the population.

Japanese have good rating for virtually all types of social inadequacy except crime. Their rating for that type is 153.13. The American Negro's is 207.89.

For dependency—that is inability to get along, though having no specific defect—the Irish rate worse 614.03, and the American Negroes rate best, only 24.02. All foreign-born rate more than fifty per cent worse than the average. Native whites born of foreign born parents rate a little better than do native whites of native parentage.

quacy except crime. Their rating for that type is 153.13. The American Negro's is 207.89.

S.S.S. stops Rheumatism

"MY Rheumatism is all gone. I feel a wonderful glory again in the free motion I used to have when my days were younger. I can thank S.S.S. for it all! Do not close your eyes and think that health, freedom and strength are gone from you forever! It is not so. S.S.S. is waiting to help you. When you increase the number of your red-blood-cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them." S.S.S. is the great blood-cleanser, blood-builder, system-strengtheners, and nerve invigorator.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Entered as Second Class Matter, July 27, 1923, at Clearfield, Pa., as second class mail matter.

President Harding stood yesterday on Canadian soil. A generation ago we Americans had a vague idea that any President who stepped out of the United States or off an American deck in foreign waters automatically ousted himself from his job. We know better now. We are learning to be more neighborly and to talk with each other as neighbors. That is what the President did at Vancouver. He made a good, old-fashioned neighborly talk about boundaries, line-fences and such. We have found in the reach of 108 years, since 1915, that line-fences bristling with bayonets and barbed wire are arrant foolishness. Long since we Americans and Canadians came to the conclusion that "Hands Across the Fence" was the only safe, sound arrangement for two God-fearing and peace-minded nations who know how to mind their own business. We be of one blood, of one speech and of like minds, and that border unfenced by guns and unguarded by bayonets is exactly what it should be: a convenient political and geographical mark.—Public Ledger.

Great Britain, first of the allied nations to make formal arrangements for payment of the war debt due the United States, has set a good example to other European countries. Some of our other debtors seem to think that the United States is a selfish and grasping nation, and apparently they conclude that they have at least a moral right to attend to everything else under the sun before they even think about the money which they borrowed from America.

The British government already has made substantial payments to the United States, and it is becoming more and more evident that the American debt settlement plan is popular in Britain. A dispatch from London says that when Premier Baldwin made a speech praising the United States for the friendly spirit revealed in the debt negotiations, the cheers from a large audience were loud and prolonged.

Instead of referring to the United States as a greedy creditor, the Premier declared that the negotiations for collection of the debt represented "unparalleled friendliness."

Premier Baldwin expressed the gratitude of the nation to the American debt commission. "This is the first step in the settlement of world problems," he said. "It has made America more willing than ever to work with Britain for the regeneration of the world." Uncle Sam would be pleased to hear from other European debtors capable of getting pleasure from the knowledge that they are meeting their obligations in an honorable way. This does not apply exclusively to the allies, for Germany owes us large sums.—Des Moines Capital.

DAN BAILEY JAILED FOR MOTOR LAW VIOLATION

Dan Bailey (would you believe it) was landed in Sheriff Tom Lowell's big stone jail last evening charged with violation of the motor law by driving an automobile while intoxicated. The affair happened up in Burnside township yesterday. According to Constable Woodside, who made the arrest, Dan and his intoxicated machine were whirling about the countryside in a devious and unlawful manner and against the peace and safety of the traveling public generally. When the constable attempted to wigwag Dan to a halt, he reckoned without Dan's actual state of mind, and as a result the machine ran right over the minion of the law or would have done so had the constable not been able to save himself by a rapid faux pas.

Anyhow he landed Dan in the hoosegow. Friends came to his rescue this morning and Bailey was released on \$500 bail for his appearance at September court.

Now for the denouement. Yes, it wasn't our Dan Bailey. The Dan Bailey in question lives at Stiffertown, near Burnside. You should never

or jump at conclusions, and there is little or nothing in a name, even though the Burnside township Dan was full of that which he should not have surrounded.

CHILD SCALDED TO DEATH

Punxsutawney, July 26.—Falling backwards into a kettle filled with hot coffee Mary Elizabeth, 23 months old daughter of Mr. and Mrs. Leonard Wells, of Anita, was so badly scalded Sunday that she died early this morning after three days of terrible suffering.

The mother of the child was preparing to wash the child's legs when the little one in spirit of play backed away from her, colliding with the kettle filled with coffee. The lid was over the kettle but the impact knocked it off and the child sat down in the boiling liquid and was immersed almost to her neck.

Medical aid was immediately summoned but the burned area was so great that nothing could be done.

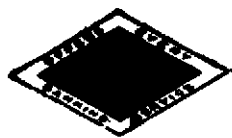

She leaves her parents and one brother. The father is a nephew of the Drs. Benson of this city.

Not Exactly.

"Now that funds have practically ceased in this region," said the spectated tourist, "I presume you have figuratively speaking, beaten your pistols into pruning hooks?" "Exactly," replied Mr. Gap Johnson of Punxsutawney. "In the first place, we don't raise prunes here, and in the second place you never know when a dead feud will be gin to set up and take notice."—Kansas City Star.

Stagnant Spots in Ocean.

The Sargasso sea is almost the resting center of the whirl of the ocean currents in the north Atlantic. The seaweed comes from distant shores where it has been wrenched off by the force of the currents. There are four other great weed-hammered areas of little motion beside the Sargasso sea.

Persistent Bees.

For 20 years a swarm of bees have occupied the back of the school clock at Micheldever, England, and no attempt at removing them has been successful, states a resident of that town. The swarm had been thought destroyed some years ago and the entrance the bees had made was cemented up, but each year they have returned, and they even bored a hole through the clock.

U. S. MARINE CORPS SERIAL GOLF

Sergeant John D. Stray is in charge of the U. S. Marine Corps recruiting station at Dulles, Pa., has just received word that an aviators golf course has been laid out by the men of Observation Squadron No. 2, U. S. Marine Corps, stationed at Port au Prince, Haiti.

A full-fledged golf expert, Corporal Christopher Shea, is in charge and is busy making it the best course in the West Indies.

Corporal Shea is also giving instruction in the ancient and royal game, whether of the aerial, African or Scottish variety is not quite clear. The recent introduction in the United States of aerial golf, however, leads us to suspect that shots falling at the bunkers may be assisted to their goal by means of DH-4's. If the Marines in Haiti are able to put successfully from the air we will concede them the best golf bunkers on record.

Sgt. Stray states that he has openings in the station and any one wishing information about the Marine Corps can get same by writing or calling on Sgt. Stray at Dulles, Pa.

Fairy Palaces.

Do you know what fairy palaces you may find of beautiful thoughts, proof against adversity? Bright fancies, suggested memories, noble histories, faithful records, even a glimpse of perfection and truth, which come to you in the form of a thought, which you can hold in your hands for your own use and pleasure.

Fiber Sponge.

The Loofah sponge, now in general use, is made from the network of fiber from the inside of the gourd, probably one of the oldest vessels known to man. Japan furnishes the best sponges of this kind. The fiber used in the Loofah sponge is dried thoroughly, after which it becomes wholesome and crisp.

Using Watch as Compass.

With a watch flat in the hand, the hour hand pointing toward the sun, the point on the circle half way between the hour hand and XII, will be directly south in the northern hemisphere and directly north in the southern.

Progress Editorial For Women

LET 'EM TRY IT

By FLORENCE DAVIES

A young engineer once remarked that if Henry Ford had had a technical training he would have known better than to have attempted some of the things which he has done successfully.

So much for ignorance. It's a great thing, some times, not to know what you can't do.

So much for youth. It takes youth not to have sense enough to know that it can't do things. The result is that more than half the time youth goes in doing regardless of "can" or "can't."

When a cat never to have to learn the lesson of "a thing ventured nothing gained." For in one realm at least they are the greatest adventures on earth. That is the realm of clothes.

If anyone had asked you ten years ago if women would ever walk out on the street in mid-day, wearing dresses with no sleeves at all, he would have been laughed at. But in the realm of dress at least a woman's motto is "we'll try it once."

Why is it then, that women are so slow to try new ways in the house hold?

It was a good thing for Henry Ford that he didn't know any better than to try some of the things he did. A good thing, too, that he was old enough not to pay attention to people who stood around and said "It can't be done" just as so many of us say to unpractical youngsters.

It takes a lot of self-control sometimes not to tell children that they can't do perfectly impossible things. But one thing is certain. Children who are always told that they can't accomplish things seldom go far.

"Try it, son, try it," may not result in making another Henry Ford of your small son, but it will make a more successful citizen than a continual chorus of doubt.

"I wouldn't try that," is a phrase that never made any great men unless it served to stir a youngster's antagonism just enough to make him do it in spite of you.

A brown eyed boy of 12 announced solemnly that he is going to be a great editor. What's the use of telling him that one doesn't get to be a great editor by taking thought? What's the use of saying "How are you going to get the job?" How little does he know the long route one travels before he finds himself a truly great editor. If he knew the difficulties in the way he might never begin.

Whatever you do, don't tell him Let him find them out for himself. Youth has a way and perhaps to your surprise he will never find them. Perhaps, like Henry Ford he will attempt things a wiser person would know couldn't be done—and then do them.

Mrs. Roy McMullen and Mrs. J. W. Rafferty of Clearfield spent Wednesday with friends in Curwensville.

Curwensville's Column

on Monday. Rev. Father Lynch will officiate at the service.

Curwensville kennel of Yellow Dog met in session at the Moose hall last evening and carried out all sizes and breeds were there in abundance. The net was spread and whelps from Phillipsburg, Ramey, Clearfield and Curwensville were swept into the howling circle of dogdom. The strange dog soon became reconciled to their new mates and now are just as anxious to be the cinnamon cubs as all good and true Yellow pups are supposed to do. After the initiatory ceremony were completed, the all-important question came up, "Will the Yellow Dog organization of Curwensville stage and undertake the responsibility of a Labor Day celebration?" It has been earnestly argued that the

social and fraternal society take charge of things on Labor Day at Curwensville and arrange and carry out a program that can be enjoyed by all without bringing into it any "naïf" frills or feathers. The question was discussed at length and the sentiment among the leading dogs of the pack was that Curwensville kennel take hold of the matter and push it through with a whoop.

Two contracts have been let by school board for the heating and plumbing of the old Quaker church which will be used as an extra classroom. The Curwensville Heating and Plumbing Company have the heating while Frank Hastings has the plumbing.

Lessons in Violin, Mandolin and Voice will be taught in classes in the basement of M. E. Church, Curwensville, by Prof. F. A. McDivitt, who has been teaching piano and voice individually here. All those interested can see Mr. McDivitt at the church Monday, July 30th, from 10 a. m. to 12 m.

\$7,500 FOR A TOE

Apo, Ariz., (United Press). — A big toe is worth \$7,500, according to M. W. Seftord, who placed that value on a toe he lost in an accident at the New Comedia copper mine when he brought suit against the company.

Famous Kisses.

The first kiss. Molasses kisses. A kiss in the dark. The kiss of the pool balls. A kiss on the beeper. Stolen kisses.

First Water Wagon Now In Museum

Madison, Wis., July 27 (United Press). The original "water wagon" has been saved from dusty oblivion. The ancient survey, side-lights, canvas top and all, in which Frances Willard used to ride about the middle west leaving in her wake the first spotless, white badges of the Woman's Christian Temperance Union, now rests in the museum of the Wisconsin Historical Society.

It was presented by members of the Beloit, Wis., W. C. T. U. There was no cash of nothing who had it on a rainy day. Anna Jordan, president of the world W. C. T. U., and Willard's oldest companion on the old survey, spoke briefly of the life of its owner, the

Miss Willard driving on an Evanston street. The rakish tilt of the top is unmistakable, Brown says. The carriage rests beside another distinguished equipage in the halls of the museum. The coach in which Daniel Webster took his afternoon drive will be its companion-piece.

THE FAIR SUZANNE'S NAME

London (United Press). — Sometimes the low-brows are right. Miss Suzanne Lenglen's last name is pronounced Leng-len, with the "e" as in tennis, and not "Long-long," she told listeners-in when she broadcasted to them here.

Managing a Fortune.

We should manage our fortune like our constitution; enjoy it when good, have patience when bad, and never apply violent remedies but in cases of necessity. — Rochefort

CROOKED RUN

CAMP "WARNER"

The Crooked Run Camp members held an old fashioned "house warming" at their newly remodeled camp last evening. President Thos. J. Lowell, presided at the dinner, which was enjoyed by the thirty-five members present, including Pete Shaw and his goat.

The Crooked Run camp has recently been overhauled and enlarged and is today one of the most commodious and best equipped hunting camps on the mountain.

Woodruff Declares Snyder Had No Right To Stop Pay

Harrisburg, Pa., July 27. State Treasurer Snyder has no right under the existing law to refuse payment of salaries on any expenditure which has not been approved by the Auditor General, Attorney General, Woodruff declared today in making public the Administration's position in the controversy over the Administrative Code.

The payroll hold-up was also held "illegal," said Woodruff. "Under the law, the Treasurer and Auditor General are not to be paid until the law is passed. Snyder's duty is to pay the salaries of the officers of the State."

Woodruff said that he was not a party to the hold-up. He said that he was not a party to the hold-up. He said that he was not a party to the hold-up.

The way is still open to the State to pay the salaries of the officers of the State. The way is still open to the State to pay the salaries of the officers of the State.

Overlooking the Sun. It's just possible that the reason why some men have a hard job to but is that they are not looking at the sun.

EVERETT TRUE

ST. MARYS MAN IS VICTIM OF AN ODD PAINFUL ACCIDENT

St. Marys, Pa., July 27.—Louis Lecker of Munster Road, near St. Marys, a 41-year-old man, was injured in a very critical condition. His left hand is severed at the wrist, the right hand is crushed, the left leg broken below the knee and he is bruised about the body, with probable internal injuries, as a result of an accident at the Niles Lamp Works, his place of employment, this morning.

Lecker, who was employed on the collar excavation job at the Niles plant, went into the pit after a charge of dynamite had been set off to see what had resulted. A big rock fell from the excavated material from the cellar, backed down the incline into the hole. The brakes on the machine must not have held, for it crashed into the excavation so rapidly that Lecker did not have an opportunity to get out of its way. He was pinned between the back of the truck and the end of the pit where the blasting was done.

NOTARY TO MEET IN TORONTO IN COMING YEAR

Chicago, July 25. The council of Notary International, meeting here today, decided to hold the next Notary convention at Toronto, Ontario, Canada, during the week of June 16, 1928.

Opportunity a Sympathant. Opportunity is like everything else, always ready to call on a man who is already successful. —London Answers

London Invaded by an Army of Americans

Stattle the Natives When They Meet Friends And Bootleggers From Across The Atlantic

By Chas. McCann
(United Press Staff Correspondent)
London, July 27 (United P. C.).—This is American summer in London. The trans-Atlantic tourist movement has passed the proportions of an invasion and become an occupation. Hotels are filled, boarding houses are overflowing. Horn-rimmed men and flat-heeled girls crowd the streets. Soda fountains and peanut merchants are enjoying a prosperous season— their first.

Prohibition restriction in the States have caused a lot of comment and some knocking; Englishmen cannot understand a few people letting anything come between the cup and the lip without a struggle.

But while British sailors were marching in the Portland Fourth of July parade, London hotels, newspaper offices and private homes were flying the stars and stripes; and at the hotels Britons helped to celebrate the anniversary of American independence from British rule.

The London county council gave hotels an extra two hours of drinking and dancing for the occasion.

All Kinds of Americans. Every sort of American is here. Secretary of the treasury Mellon and Secretary of Labor Davis represented the government. Senator Broome is here in the interest of the common people. There are scores of other senators and representatives, and it would probably be as nearly possible to raise quorum in either House here as it would be in any quarter of the United States.

There are thousands of ordinary citizens, and they run into their neighbors and their bootleggers with shouts of delight that still startle the natives, who disapprove of anything as a matter of principle, and don't know what a pal an honest bootlegger can be.

Americans can—and do—go to American shows and see American companies. They dance to the music of Paul Whiteman's and Paul Shubert's bands. They occupy whole sections of the stands at any sporting event.

Chocolates Anywhere.

watch Americans vigorously bring home the bacon.

Johnson and Hunter fought out the final in the All-English tennis championship; Americans were runners-up in the open golf; Hoover and a half dozen brother-lawyers were competitors in the diamond sculls at Henley.

Pay Same Prices. Americans pay same prices at hotels as do Englishmen. There are Anglo-American unweilders, Anglo-American speeches, Anglo-American dinners, informal Anglo-American reunions at "pubs" and cocktail bars, and at the rougher and wetter cafes, occasional Anglo-American fights.

There is baseball at the Fulham football grounds, and Englishmen who wonderingly recognise baseball as what their children play just after they have learned to run, go out to the games just to hear the boys yell. It doesn't mean anything to them; they like the strange noises. They listen and go back home and start a discussion in the newspaper about it.

This week's discussion is as to the meaning of "attaboy." The natives have got to it so far that it is a contraction of "At 'em boys."

The Classic Dutchess. "Merely a tip-of-the-tongue!" said the meat man as he picked up the tongue that had slipped from his hands.—New Haven Evening Register.

Dip Keys in Oil. Dipping keys in oil occasionally will keep locks in order. All hinges must be oiled with an oil feather now and then to save the annoyance of breaking doors.

SOUNDS LIBELOUS

London (U. P.).—Heard during an American tourist party's rubberneck tour of London:

Whaddya say is wuz?
Hoe e o' Pa-lymint?
Yeah, House o' Pa-lymint?
Mean Congress, don't it?
Yeah, means Congress, Lee o' a lie they'd use n' English for it. Thasari, Pa-lymint's French.
Yeah, French. Th' English 'r too tony anyhow, always draggin' in French handles.
Yeah, thasari, always draggin' 'em in.
J' notice they gotta lotta French names on'a menu at 'hotel?
Yeah, an' fish f' breakfast. S'awful, ain't it?
Uh-huh, 'd rather eat 'n Muscatine any day.
Yeah, so'd I, or in Duluth. Yever in Duluth?
No. S'nice town, I guess, but I gotta live around water s'why I like Muscatine. S'right on'a river.

Whaddya say isswuz?
Westminsters Abbey.
Yeah?
Yeah, Westminsters Abbey. Well, Duluth ain't so bad. S'on'a lake y'know. Y'oughta come up some time.
Yeah'd like to. Whaddya say isswuz?

Mrs. J. M. McCracken and daughter Velma, and son Harry motored to Portage Wednesday, returning home Thursday. They were accompanied back by Mrs. McCracken's two grandsons Willis and Luther Ritchey, who will spend a few weeks vacation with their grandmother.

Miss Marguerite H. Armstrong of Nichols street, has gone to Newberry and Williamsport to spend her vacation with relatives.

Applies to Home, Too. It is a good rule to endeavor hour by hour and week by week to learn to work hard. It is not well to take four minutes to do what you can accomplish in three. Learn to work intensively.—Charles W. Elliot.

Must Commend Sympathy. Nations, like individuals, are powerful in the degree that they commend the sympathies of their neighbors.—Bovee.

NEWSPAPER ARCHIVE

WARD FINALLY IS INDICTED IN THE PETERS MURDER

White Plains, N. Y., July 26.—The son of a millionaire, whose wealth was alleged to have made him immune to justice, was re-indicted today on a murder charge and locked up with the option of bail after being arraigned through the high courts of New York state.

The accused Ward-Peters murder case was dug out of the prose into the public eye before a jury in re-indictment of the charge that justice, like Monday's "ladies of the evening," is only a friend and playmate of the rich.

Walter S. Ward, son of George S. Ward, the blacut and bread and thought at magnate of several large eastern cities, was conducted to a cell in the Westchester county jail to await trial on September 4. He was smiling as he picked up his next trial and left the court room with the same mocking smile that he turned on the detectives who swarmed over the Westchester hills in May, 1922, looking for the solution of the Clarence Peters murder. His attorney, who had fought the attorney general of New York state all the way up to the governor's office, with him, Ward seemed confident that this time the state would be beaten in its actual showdown on the evidence.

The first time he was indicted for first degree murder shortly after the killing of Peters, the prosecution failed to prove the charge and eventually granted the indictment to be dismissed without trial. The action resulted in a rumble of indignation that grew steadily in volume until, a few days ago, a veritable storm crashed down on the desk of Governor Al Smith and he ordered the attorney general to ascertain whether the facts deserved submission to a new grand jury. (Clarence Peters had been a sailor, U. S. N., with no very admirable record and also had been accepted on conditional enlistment in the marine corps. He was broke and poorly equipped at the time when Ward, according to the admission of his counsel, more than a year ago, felt compelled to kill him with a pistol bullet on the lonely Kenisco reservoir road. Ward never did particularize, but he set up a general story to the effect that Peters was the agent of a gang of blackmailers.

Ward had paid large tribute to this gang, as his story ran, to suppress information they claimed to have, concerning an unidentified member of the wealthy Ward family. There came a demand for another large sum and letters appeared in the negotiations in intermediary. Ward cabled his father in Paris requesting money, but when the wealth barrier to his father's money for "hush" purposes, the answer came back: "Not one cent for tribute."

The gang never was identified. Detectives claiming to know every thing and blackmailer on Broadway said the

Strange Rivals

Maggie Riley, of the famous Devil Dog baseball nine, shakes hands with "Cocker," Hamford, rival first baseman, of the House of David team, before a recent game at the Polo Grounds, New York.

characters were all faked. When the attorney general tried to examine the cablegrams exchanged about that time between George S. Ward and his two sons, the Ward attorneys fought all the way to the highest state court. The attorney general contended that the cablegrams would show there was such heroic defiance from the father of Walter.

During the renewed investigation a man appeared in England who said he and his wife and daughter were transported out of the United States by agents of Walter Ward. He declared his wife had been schooled in hours by Ward's representatives until she was almost hypnotized into the belief that Clarence Peters was a degenerate. The wife, in return for promises of money, had sworn to a false statement that Peters was the father of her daughter's child, the Englishman declared, but after the family had broken up their American home and moved back to the old country—at no expense to themselves—the expected remittances did not arrive and therefore he wrote his story.

Ask Uncle Sam to Pay Big Sums to Inventors

Philadelphia, July 27. (United Press).—Out of the world war has arisen the biggest patent litigation in the history of the country, which will cost the United States government many millions of dollars if patents on mobile heavy artillery are held valid by the federal courts.

Several suits have already been filed, one in this district against the Baldwin Locomotive Works, and others are to be started in various parts of the country.

While corporations are named as defendants, the Government, it is stated, will ultimately have to pay any damages that are awarded, because it purchased manufacturers of war armaments against damages and patent claims.

The plaintiff in the suits is Lawrence W. Lullien, who claims that he and Cecil T. Dawson invented improvements on gun mounts and other mobile heavy artillery which were used extensively and successfully in the war. Dawson assigned his rights in the inventions to Lullien.

At \$15,000,000 in the suit against the Baldwin Locomotive works alone \$15,000,000 in royalties are involved and if Lullien's patents are sustained, the Government would have to pay this sum. The importance of the suits to the government and the magnitude of Lullien's claims were disclosed when counsel for the Baldwin company asked the Federal Court here for a ninety day extension in which to file an answer to Lullien's suit.

"This is no ordinary suit," the attorney said. "But is one of the biggest litigations in the history of the co-

untry." He explained that the company needed the additional time to obtain the results of a world wide investigation being made by the department of justice to ascertain whether the invention of Lullien is an original one, or whether he and Dawson gained their idea from patents, which were never put in practical use.

For months it was learned, department of justice agents have been digging into the archives of patent office of all the European countries for information relating to mobile heavy artillery and have not yet completed their investigation.

Joy of the Work.

On the higher levels there is no adaptation; our selfish desires are at odds with nature, we are out for a good time and get no response; but the keynote of the higher level is joy—the joy of the laborer who has found his work of the lover who has seen his object, of the hero who has received his commission.—L. P. JACKS

Tap Root From Poison Root.

Few people who enjoy tapoca put the realize that they are eating a product of the poisonous cassava root. In its natural state this root is extremely bitter and harmful because of the hydrocyanic acid that it contains, but when heated it becomes palatable and its poisonous qualities are readily dissipated.—Popular Science Monthly.

Contrast of English Counties.

Lincolnshire is the fattest and Westmorland is the poorest of the English county.

PLAYGROUND ITEMS

The playground horseshoe game continues interesting. East End is still good with five victories and Witmer next with three. Witmer and West Side have two old games, a rainy day and a forfeit, which should be played off as soon as possible which will allow the sheet as it stands now. Witmer is coming up well, tumbling Redeville in games 5-0. East End pitched West Side yesterday, winning four games straight with ringers to Delancy's credit. Undercoffer and Conner, East End pitched Jay and Warner, Redeville on Wednesday with the former team still in the lead.

This afternoon's excitement in the great American game and there should be some interesting reports. Most of the teams have been playing pretty constantly and some good baseball is developing.

Habit of the "Tractor Rat."

The tractor rat is the common wood rat, the bushy-tailed rat of western and northern America. This rat does make a practice of leaving something in place of food, etc., that it may have stolen. This is not an intelligent act on the part of the rat, however, but is due to the fact that the rat sees the food when it is out of its mouth, when it generally does not find it on the food.

HORSESHOE NEWS

The Garry pitchers will surely be here tomorrow and it is expected the series will start soon after three o'clock on the Reed street courts which will be conditioned for the occasion. Out-of-town horseshoe men are a new deal and beyond the fact the local defenders certainly are good there is no speculation as to the comparative merits of the visitors. One thing is sure and that is the game will be well worth seeing. As it will take some time to pitch seven games even on two courts, there will be something to see from three to six continuously and perhaps after. Admission is a quarter and considering the expenses this is an important item in the case.

Cat Was Taking Music Lesson. One morning while down in the basement I heard someone playing the piano. Knowing my daughter had left for school, I did not know what to think of it. It sounded like someone was trying to play that did not know how. I went upstairs to investigate, and on arriving I found the cat jumping around on the keys.—Chicago Journal.

BETTER KIDDIES WHEN FED OUR MILK

Any kiddie that is being fed our milk regularly, is a better kiddy mentally and physically. The undernourished child, even the given what looks to be the food for him or her, is peevish and fretful. Possibly it is not getting the proper nourishment—the kind it would be getting if our milk were the main article of diet.

When the kiddies get our milk they are getting all the goodness that Nature put into the milk and there is usually a marked change for the better right away.

Let the kiddies have plenty of our milk and they will thrive.

NUMBER 176

NO FOUNDATION FOR REPORT OF ATTEMPT ON HARDING'S LIFE

Washington, July 27.—Department of Justice agents two months ago investigated a reported plot to assassinate President Harding and found there was absolutely no truth in the report and no foundation for the rumors, Wm. J. Burns, chief of the Bureau of Investigation, declared today.

The department had been informed at the same time of a plot to kill Attorney General Daugherty, but this also proved without foundation, Burns said.

For a time, in view of the report that reached him, authorities investigated the activities of Philip Kurlinsky and Sophie Bushwick, alleged anarchists, Burns said.

DUNDEE WON TITLE AGAIN LAST NIGHT; AN EASY WINNER

New York, July 26.—Johnny Dundee won the featherweight championship of the world here tonight when he earned the referee's decision over Eugene Criqui, French war hero and conqueror of Johnny Kilbane, in 15 rounds.

The New Yorker wrested the crown from the head of the Frenchman with such ease that the vast crowd of more than 40,000 who witnessed the fight were dazed. Twice Dundee knocked the gallant little man from across the sea down, dazing him and having him all but out. From the very first round when Criqui went down for the count of eight the fight was one-sided, so much so, in fact, that the referee appealed to Criqui's seconds to stop the bout.

But they refused and Criqui went reeling and staggering around the ring during the closing rounds, fighting as game a fight as has ever been seen in a New York ring. Hopelessly beaten, almost helpless, he carried on just as he had on the field at Verdun where his jaw was shot away by a German machine gun bullet.

Vainly he tried, seeking to land those swings that had won the world's championship from Kilbane in his last fight. But this was a different opponent from the slow Kilbane. It was Dundee, the flashing, brilliant one who had been seeking a chance at Kilbane for 13 years, ever since he fought a 20-round draw with the Cleveland.

PICNIC AT CURWENSVILLE

The Vacation Daily Bible School scholars to the number of a couple of hundred picnicked at the Poe Wees Nest today. A fine time was had by all. The kiddies and the baskets were transported to Curwensville by automobile at 9:30 today, this arrangement being in the hands of Reuben Neuling, the well known Gulich township military genius and strategist, who made a neat job of it. Cars will leave here about 4:15 this evening to bring the kiddies home. Join the procession.

Miss Hetch of State College, Miss Miller of Len Hope, Miss Clark and Mrs. B. W. Wilmoth, of Glen Campbell, spent Thursday with Mr. and Mrs. L. G. Darr.

WOMEN SURE ARE HARD TO CONVINCE, ESPECIALLY WHEN THEY ARE IRONING; HOUSE AFIRE, HERE'S ONE WHO TOLD INFORMANT "MIND YOUR OWN BUSINESS"

Cooper township women are more or less peculiar, while some of them are real "set in their ways." One of this latter kind is Mrs. Andrew Dahl, of Winburne. Yesterday morning about 10:30 o'clock, neighbors living some distance across the hollow from the Dahl home noticed a great deal of smoke about the roof called Mrs. Dahl on the phone and told her they believed her house was on fire. Mrs. Dahl had a big ironing ahead of her and as she was working pretty close to a red hot range was somewhat heated up.

The call to the phone while in the midst of that ironing, which had gotten on her nerves anyhow, did not serve to lower the temperature in the Dahl home and when the information, as stated above, was given her Mrs. Dahl bristled right up and said: "I

THREE MAKE NIGHT TRIP OF CHICAGO TO NEW YORK BY AIR IN EIGHT HOURS

Over Night Commuting Practicable Say Men Who Made Non-Stop Trip While We Slept.

RETURN SATURDAY

Garden City, N. Y., July 27.—Over night commuting by airplane between New York and Chicago has been established as practicable by an eight and one half hour non-stop flight between the two cities.

The airplane, piloted by Edward Stinson, well known commercial aviator and carrying Charles Dickinson, President of the Aero Club of Illinois and Arch Grey, mechanic as passengers, reached here this morning. It hopped off from Chicago at 11:00 last night, central standard time. The three flyers will stay at a local hotel until tomorrow, when they plan to hop off on a return trip. The return will be by daylight.

The flight was made in an all metal German Junker monoplane, capable of making 120 miles an hour. An average of 100 miles was maintained on the flight, according to Stinson.

Gunman And Woman Kill Two Policemen In New York City

New York, July 27.—A gunman and a screaming woman shot two police to death on the running board of a taxicab on the upper east side here last night.

The bodies of the two patrolmen were found in a gutter where they had rolled and died before they could reveal the mystery of the strange shooting. The taxicab dashed away and was lost in the maze of after theatre traffic on Broadway. Hundreds of police are prowling today through the Bowery Dives for the murderers and the underworld is in a turmoil. All ferries and railroad stations are guarded to prevent the escape of the death car.

HARDING BACK FROM TRIP TO ALASKA; NOW AT SEATTLE

Seattle, Wash., July 27.—President Harding came home today to report to the American people the result of his official visit of investigation to Alaska. He was prepared in a speech to be delivered here late today to go fully into the Alaskan situation from the viewpoint of the government and of the American people as a whole, and as well from the standpoint of the Alaskans themselves.

DOLLINGS COMPANY IN THE LIMELIGHT IN MANY COURTS

Indianapolis, Ind., July 27.—Governor McCray today instructed Attorney General Leach to investigate activities of the R. L. Dollings Company of Indiana, fiscal brokers now in the hands of a receiver.

The action was taken to protect Indiana investors, who are reported to hold millions of dollars worth of stock in the Dollings company and its subsidiaries, the Governor said.

All branch offices of the company in Indiana are closed by order of Bert A. McBride, Receiver.

Philadelphia, Pa., July 27.—An involuntary petition in bankruptcy was brought against the McCambridge Company this morning by three of its creditors.

The McCambridge Company is a subsidiary of the R. L. Dollings Company.

The petition was filed in the United States District Court upon the admission of the company, which manufactures plumbing accessories, of insolvency. It was capitalized for \$400,000. No statement was made in the petition as to its liabilities and assets.

Philadelphia, July 26.—Thomas Raeburn White of Philadelphia, was today appointed receiver for the R. L. Dollings company of Pennsylvania by Judge Dickinson of the United States district court.

A receivership was sought by stock holders who alleged that officers of the Dollings company paid dividends to subsidiary concerns that did not earn them. Mr. White was placed under \$100,000 bond.

A temporary receiver was appointed today by the Chester county court for the American Bronze company of Berwick, Pa., a subsidiary of the Dollings company. Robert O. Sperry, general sales manager of the Bronze company, was named receiver.

GERMANY'S INCOME ONLY TWO PER CENT OF HER EXPENSES

Berlin July 27.—Germany's income in June was only two percent of its expenses, the Tageblatt declared today and ironically advocated abandonment of taxes in favor of the printing press.

Germany's sixty huge presses continue to grind out billions of marks a day while the purchasing power of the paper currency approaches the absolute zero.

The Cuno Government is being made the scape-goat and political changes are believed imminent.

London, July 27.—German mail passed the equivalent of 1,000,000 to the dollar in a steady descent on the money exchange this afternoon, being quoted at 4,000,000 to the pound sterling.

Glenn Moore of Rochester, N. Y., is visiting his parents, Mr. and Mrs. L. C. Moore on West Third avenue.

He Proves It

J. H. Van Norman, loop-the-loop artist, performed this stunt at Bridgeport, Conn., to prove that the rear seat of an auto is the more dangerous. "When a pivoted body is suddenly stopped centrifugal force overcomes gravity," he says, explaining why he is catapulted over the bike.

METHODIST BAN ON AMUSEMENTS LIFTED BY NEW AGREEMENT

Chicago, July 27.—The Methodist Episcopal lay on theatre attendance and dancing will be lifted under plans of re-amalgamation of the north and south church, it was declared here today by Rev. E. Robt. Darring, Editor of the North Western Christian Advocate.

Darring said the constitution provides the union will allow actors and dancing teachers to join the church. The amalgamation is a "practical certainty" as a result of the Cleveland Conference, he asserted.

FIFTY-THIRD ANNUAL PICNIC

The fifty-third annual Frenchville picnic will be held in the beautiful grove near the church in that village on Thursday, August 22d, and is ready promises to be the biggest and best picnic in the long series of such events at this popular point.

The Rolling Stone and Deer Creek bridges will both be open to traffic this year and will thus make it possible for the usual large crowds from the Cooper and Morris country, the Philipsburg, Osceola and Houtzdale region to get across the river without traveling so many miles around as has been required since these bridges went out several years ago and this fact alone will guarantee an exceptionally large crowd at Frenchville this year.

ILLICIT LIQUOR MANUFACTURERS BITING THE DUST

County Detective Snyder and State Troopers Barker, Pecker and Haiby are continuing their efforts to dry up the illicit booze business around DuBois. Yesterday they had Anthony Kumetis and Staniel W. Nendza, DuBois residents, before the bar of Alderman Bogden's court on a charge of violating the liquor law.

At the Kumetis home the officers found a still, a coil, one-half p. liquor and destroyed 30 gallons of mash, after preserving a ju full to be used as evidence.

A search of Nendza's place resulted in uncaching 30 gallons of grain mash, 35 gallons of elderberry blow wine and three boilers.

The alleged moonshiners were held in \$1,000 bail each for court.

STINNES ALLEGED MEETING KAISER CAUSES GUESSES

Antwerp, July 27.—Holland and Belgium heard further rumors of an impending monarchistic coupe in Germany today when it was reported that Hugo Stinnes had been seen at Dorn, visiting ex-kaiser Wilhelm Hohenzollern.

Do for Helfferich, a noted pan-German was among those who visited the former monarch early in July and Prince Ethel Frederick, who keeps in close touch with the Junkers, has been several times to see his father.

The visitations are foundations for rumors for what it believed to be an impending coupe in Germany, having as its object the restoration of the former Kaiser to the throne.

An attempt is being made to explain the report that Stinnes had been seen at Dorn by saying it was another visitor greatly resembling the industrial Baron.

STATE POLICE MADE 6,386 ARRESTS IN LAST SIX MONTHS

Harrisburg, Pa., July 27.—More than one third of the arrests made by State Police during the first six months of 1923 were for violations of the liquor laws, it was announced today. Figures of June 30 show 6,386 arrests were made for infraction of the laws, of which 2,263 were for "dry" law violations.

PRIEST RECEIVES SENTENCE OF TWO YEARS IN PRISON

Denver, July 26.—Father Walter A. Grace, Arvada priest, was sentenced to two years in Federal prison on each of two counts for forgery of applications for liquor permits this afternoon.

Mrs. L. C. Moore spent Thursday in Cramplan.

Miss Grace Hoyt and Miss Mackie visited friends in Curwensville Wednesday.

CURWENSVILLE IS GOING TO HAVE A BIG LABOR DAY CELEBRATION

Chamber of Commerce Has Asked the Yellow Dogs to Put 'er Over and They Took Job.

WILL BE A SUCCESS

Chief Cur Grant Norris' signal whistle was sounded last evening for an important bone gnaw at Curwensville Kennel of Yellow Dogs and when the time arrived to assemble around the sacred relic "yellow dogs" to the number of more than one hundred, from all the surrounding territory were present to participate in the ancient ceremony. Among the number was a delegation of half a dozen or so from Clearfield. In this delegation were three vagabond curs who were admitted to membership. There were Joe Anderson, Fred Pilkington and Jack Platt. They got by with it in good shape and made quite a success of their first running with the pack.

At this meeting the matter of the observance of Labor Day in Curwensville was discussed. "Our sister townspeople have long felt that as they have been contributing largely to the success of Clearfield's fairs and fourth of July celebrations and will send a big delegation to the firemen's convention in August they thought it only fair they should be accorded the privilege of staging the Labor Day celebration for this section."

The Chamber of Commerce felt it was due to the labor organizations and men to have Curwensville recognize their day by putting on a celebration and inasmuch as the Yellow Dogs were made up of all classes of their citizens and many of the "live wire" of the community it was only fair that they should get behind the proposed celebration and put it across.

The proposition was discussed at length and from every angle with the result that it was finally unanimously decided to accede to the request of the Business Men's association by taking over the job of putting Curwensville on the map for Labor Day. Prof. Grant Norris was then chosen general chairman with power to select an advisory committee and all the aids necessary to make the affair the success it will undoubtedly prove to be.

Editor C. A. Stewart of The Progress was present and when called upon stated that he had already discussed the matter of Curwensville's right to stage this Labor Day celebration with a number of Clearfield business men and they all expressed themselves as favoring the idea and

EAST END BOY, 9, HAS BEEN MISSING SINCE WEDNESDAY

Ray James, Jr., nine year old son of Mr. and Mrs. Ray James of Bigler avenue, disappeared from his home Wednesday last and his family are much alarmed over his disappearance. The boy is about four feet high, has hazel eyes and brown hair and when he left home was wearing khaki overalls trimmed in blue, was in bare feet and wore no hat.

When last seen he was at the camp of a bunch of gypsies who had been in this section for some time and who left Clearfield that day and traveled through Curwensville and Cramplan in the direction of DuBois.

The parents of the boy are of the opinion he was induced to accompany the gypsies and today asked the assistance of the local and county authorities in an effort to locate him. Any information concerning the lad will be thankful received by his parents at their home No. 518 Bigler avenue or call Bello's store 723 on the H. & C. phone.

LICK SHOOTERS ARE TAKEN IN VICINITY OF POTTERSDALE

Game Protectors Make Night Capture of Three Perched In Trees; One Tried to Scare Them.

HE WAS TAKEN TOO

For some time past word has been coming to the state game commission and its Clearfield county representatives that more or less illegal hunting was being done by the residents in the northern or down river section of our county and as a result State Game Protector Clair Kelly of DuBois and Deputies W. J. Davis, of Clearfield, and W. J. Delansky, of Houtzdale have been quite active in that section recently.

They gathered information enough to warrant a raid into the territory and on Wednesday night last a party composed of Kelly, Davis, Delansky, E. W. Turley, of Ridgway, and D. A. Zuffall, of Pottersdale, slipped quietly into the Karthaus country, traveling by automobile and coming in by way of Medix Run. They reached a point between Karthaus and Pottersdale, and about six miles from the latter place, on the old Sinnemahoning road, where they located a Ford parked in the brush alongside the road. They were in the vicinity where previous investigation had convinced the game protectors that considerable lick shooting was being done. Using the car for a starting point, the officers quietly circled about through the woods and soon discovered two men on scaffolds erected on a couple of trees commanding views of licks close at hand, waiting for the unsuspecting deer to approach in search of rub.

By the time the men were located it was 9 o'clock. The moving about in the brush of the game wardens had scared the deer away from the licks for that evening and realizing that something had interfered with their plans and prevented the deer from coming into the lick that night, the illegal pot hunters descended to the trees and returned to the car. The game protectors were ready for them when they returned and, getting the drop on them in the darkness, placed them under arrest and took them from the scene.

The men gave their names as Ray and John Kolowoske, 18, who reside with his parent on a farm between Karthaus and Potterdale. As the game protectors were getting ready to load their prisoners into a car to bring them to Clearfield, a life shot rang out and the shadowy form of a third man was glimpsed in the brush about 30 yards distant, but before he had time to fire again, if that was his intention, Zuffall and Kelly had him at the point of their guns and he too was quickly disarmed and placed under arrest.

The third man proved to be Joe Kolowoske, a brother of John, and he

A Fire That Was Fed With Oil, Dynamite and Gasoline

A view of Salamanca, N. Y., shortly after a fire causing \$1,000,000 damage swept through the town. Business and residence sections suffered heavy losses and the city hall was destroyed as oil, gasoline and dynamite were ignited by the blaze.

More Color—More Oriental Designs

Novel designs from Persia, Indo-China, India, Algiers and Madagascar are stamping materials that make the new styles. Colors are more exotic than ever. Flounces and flares prevail.

The Fashion of Knitted Things

Knitted things show the influence of the latest style. The bandanna blouse sweater has a knitted kerchief. The slip-over sweater has a V-neck in the fashionable line. The Tuxedo style has a checkboard pattern in front and is plain in the back.

Curwensville Is Going To Have A Big Labor Day

(Continued From Page One.)

said they would assist to the extent of their ability and opportunity and would endeavor to see that Clearfield people generally did so by foregoing any local celebration and going to Curwensville to swell the crowd there.

Plans for a real celebration are now in the making and will be made known just as soon as they are perfected.

The Yellow Dogs started the ball rolling by each contributing one dollar toward the preliminary expenses of the big time.

LICK SHOOTERS ARE TAKEN

(Continued From Page One.)

had been watching a lick a short distance down the road from the other two.

The men were brought to Clearfield Thursday morning by Messrs. Kelly and Davis and given a hearing before Squire F. G. Chorpennig, who remanded them to jail. The car the lick shooters were using contained splashes of blood and deer hair, mute evidences that they had been successful in killing deer at their lick here before.

When quizzed by the game protectors the men admitted their previous game law violations and named a man in the meat business down that way who had been purchasing their kill from time to time, and after placing he these illegal hunters in jail the game protectors returned to the Karthaus region, where they expected to watch the suspected butcher shop and learn into some other alleged violations in that region.

ODDS AND ENDS AND THINGS

By J. D. C.

A highly interesting article on the "care of the Socially Inadequate" in this county printed in Henry Ford's *Dearborn Independent*, for this week shows that one fifth of every dollar contributed in taxes by the American people is expended for this purpose. Some of the surprising facts contained in this article are given here:

The article, which is styled "The Melting Pot Dross, Takes Fifth of Tax Dollar" is in part as follows:

Here are figures that are more than startling—they are amazing. Out of every dollar raised from taxes by the state as a whole, five fifteen to twenty cents are spent on the "socially inadequate."

The total cost to the states alone of maintaining and caring for persons in state-owned custodial institutions—that is, the feeble-minded, the insane, the blind, the deaf, the criminal, and so on—is approximately \$100,000,000 a year.

No doubt as much more is spent for the same purpose by the cities, the counties and the Federal Government.

And half as much, probably, is spent on the socially inadequate by non-governmental agencies.

This is the direct cost of varying forms of social unfitness or dependency in the United States is no less than a quarter of a billion dollars annually. The indirect cost, no doubt, is many times that amount.

But that takes account of money alone—the ramifying effect of such a volume of unfitness transcends all economic equations.

And it is shown by a scientific study recently made that from the foreign-born population as a whole there goes into custodial institutions for the socially unfit a greater proportion by forty per cent than from the total population of the country. It is nearly sixty per cent greater than goes to them from the native whites born of native parents, and is almost that much greater than the proportion of American Negroes thus institutionalized.

The survey and study were made by Dr. Harry H. Laughlin, of the Carnegie Institution, acting as the Committee on Immigration and Naturalization. The findings are now embodied in an official document published by the committee.

Dr. Laughlin procured detailed reports on inmates from 445 of the 657 state and Federal custodial institutions in the country—that is, penitentiaries, asylums for the insane, homes for paupers, and so on. Each report gave the nativity, parentage and color of inmates.

Each class, native and foreign, is rated as to "quota fulfillment." A inmates comprise a certain percentage of the total population of the country, the figure of the 1910 census being used, as they were the only ones that were available in detail. The same percentage of the total numbers of each class in the country was treated as its "normal" or expected quota. If inmates exceeded persons. The "normal" figure is represented by 100. When there is excess or shortage it is expressed in figures either above or below 100, which is the basis for figuring the percentage.

Negro's Rating High
For example, in 1910 the foreign-born constituted 14.70 per cent of the total population of the country. The survey discloses 210,925 inmates in the custodial institutions covered. The normal or expected quota of foreign-born among them, 14.70 per cent of all, would mean that 25,366 should be of the immigrant class; that is, if its average as to social inadequacy were the same as that of the native population.

"In place of this number," says Dr. Laughlin "there were actually found 35,613 foreign-born inmates, or 20.63 per cent of the total, which gives a quota fulfillment of 140.39 per cent."

Dr. Laughlin made studies of all classes with respect to the prime types of social inadequacy leading to public institutions. These show some rather surprising facts, both as to the native and foreign-born.

Perhaps the most surprising of the survey findings is that having to do with the American Negro. His showing verges on the excellent for all except one form, criminality. But for the Negro's high rating there, the colored population would show a record, for institutionalized social inadequacy, less than one-half that of the average for the population as a whole.

The first form of social inadequacy analyzed in Dr. Laughlin's report is feeble-mindedness. There the Irish make best showing. In fact, their

proportion of inmates in institutions for the feeble-minded is only 8.15—the "normal" being, as stated, 100. Swiss immigrants come next, then those from all Asia as a whole, then the American Negro whose quota fulfillment is only 15.31.

The quota fulfillment of all foreign-born is only 31.56. The foreign born from only two countries, Australia and Serbia, show quota fulfillments above the average in feeble-mindedness.

In the matter of crime the countries of Northwestern Europe make the best showing. For nearly all the rate is less than one-half of the average. Immigrants from Switzerland make the best showing for any group—they make an unusually good one in virtually all items. The Irish make second best as to crime. Serbs (from old Serbia) make the worst showing, as for virtually every item. Their record for criminality, as indicated by the proportion of their numbers in the prisons and penitentiaries covered by the report, is 1,400—that is, fourteen times the average for all the population.

Japanese have good rating for virtually all types of social inadequacy except crime. Their rating for that type is 153.13. The American Negro's is 207.89.

For dependency—that is inability to get along, though having no specific defect—the Irish rate worse 614.03, and the American Negroes rate best, only 24.02. All foreign-born rate more than fifty per cent worse than the average. Native whites born of foreign born parents rate a little better than do native whites of native parentage.

Mr. and Mrs. Joseph Schrot celebrated their fortieth wedding anniversary Saturday, July 21. A large number of friends and relatives were present, some of whom journeyed many hundred miles to be with them on this happy occasion. Entered as Second Class Matter, July 27, 1923, at Clearfield, Pa., as second class mail matter.

President Harding stood yesterday on Canadian soil. A generation ago we Americans had a vague idea that any President who stepped out of the United States or off an American deck in foreign waters automatically ousted himself from his job. We know better now. We are learning to be more neighborly and to talk with each other as neighbors. That is what the President did at Vancouver. He made a good, old-fashioned neighborly talk about boundaries, line-fences and such. We have found in the reach of 108 years, since 1915, that line-fences bristling with bayonets and barbed wire are arrant foolishness. Long since we Americans and Canadians came to the conclusion that "Hands Across the Fence" was the only safe, sound arrangement for two God-fearing and peace-minded nations who know how to mind their own business. We be of one blood, of one speech and of like minds, and that border unfenced by guns and unguarded by bayonets is exactly what it should be: a convenient political and geographical mark.—Public Ledger.

Great Britain, first of the allied nations to make formal arrangements for payment of the war debt due the United States, has set a good example to other European countries. Some of our other debtors seem to think that the United States is a selfish and grasping nation, and apparently they conclude that they have at least a moral right to attend to everything else under the sun before they even think about the money which they borrowed from America.

The British government already has made substantial payments to the United States, and it is becoming more and more evident that the American debt settlement plan is popular in Britain. A dispatch from London says that when Premier Baldwin made a speech praising the United States for the friendly spirit revealed in the debt negotiations, the cheers from a large audience were loud and prolonged.

Instead of referring to the United States as a greedy creditor, the Premier declared that the negotiations for collection of the debt represented "unparalleled friendliness."

Premier Baldwin expressed the gratitude of the nation to the American debt commission. "This is the first step in the settlement of world problems," he said. "It has made America more willing than ever to work with Britain for the regeneration of the world." Uncle Sam would be pleased to hear from other European debtors capable of getting pleasure from the knowledge that they are meeting their obligations in an honorable way. This does not apply exclusively to the allies, for Germany owes us large sums.—Des Moines Capital.

DAN BAILEY JAILED FOR MOTOR LAW VIOLATION

Dan Bailey (would you believe it) was landed in Sheriff Tom Lowell's big stone jail last evening charged with violation of the motor law by driving an automobile while intoxicated. The affair happened up in Burnside township yesterday. According to Constable Woodside, who made the arrest, Dan and his intoxicated machine were whirling about the countryside in a devious and unlawful manner and against the peace and safety of the traveling public generally. When the constable attempted to wigwag Dan to a halt, he reckoned without Dan's actual state of mind, and as a result the machine ran right over the minion of the law or would have done so had the constable not been able to save himself by a rapid faux pas.

Anyhow he landed Dan in the hoosegow. Friends came to his rescue this morning and Bailey was released on \$500 bail for his appearance at September court.

Now for the denouement. Yes, it wasn't our Dan Bailey. The Dan Bailey in question lives at Stiffertown, near Burnside. You should never

or jump at conclusions, and there is little or nothing in a name, even though the Burnside township Dan was full of that which he should not have surrounded.

CHILD SCALDED TO DEATH

Punxsutawney, July 26.—Falling backwards into a kettle filled with hot coffee Mary Elizabeth, 23 months old daughter of Mr. and Mrs. Leonard Wells, of Anita, was so badly scalded Sunday that she died early this morning after three days of terrible suffering.

The mother of the child was preparing to wash the child's legs when the little one in spirit of play backed away from her, colliding with the kettle filled with coffee. The lid was over the kettle but the impact knocked it off and the child sat down in the boiling liquid and was immersed almost to her neck.

Medical aid was immediately summoned but the burned area was so great that nothing could be done.

She leaves her parents and one brother. The father is a nephew of the Drs. Benson of this city.

Not Exactly.

"Now that funds have practically ceased in this region," said the spectated tourist, "I presume you have figuratively speaking, beaten your pistols into pruning hooks?" "Exactly," replied Mr. Gap Johnson of Punxsutawney. "In the first place, we don't raise prunes here, and in the second place you never know when a dead feud will be gin to set up and take notice."—Kansas City Star.

Stagnant Spots in Ocean.

The Sargasso sea is almost the resting center of the whirl of the ocean currents in the north Atlantic. The seaweed comes from distant shores where it has been wrenched off by the force of the currents. There are four other great weed-hammered areas of little motion beside the Sargasso sea.

Persistent Bees.

For 20 years a swarm of bees have occupied the back of the school clock at Micheldever, England, and no attempt at removing them has been successful, states a resident of that town. The swarm had been thought destroyed some years ago and the entrance the bees had made was cemented up, but each year they have returned, and they even bored a new hole through the clock.

U. S. MARINE CORPS

Sergeant John D. Straw is in charge of the U. S. Marine Corps recruiting station at Dulkois, Pa., has just received word that an aviators golf course has been laid out by the men of Observation Squadron No. 2, U. S. Marine Corps, stationed at Port au Prince, Haiti.

A full-fledged golf expert, Corporal Christopher Shea, is in charge and is busy making it the best course in the West Indies.

Corporal Shea is also giving instruction in the ancient and royal game, whether of the aerial, African or Scottish variety is not quite clear. The recent introduction in the United States of aerial golf, however, leads us to suspect that shots falling at the bunkers may be assisted to their goal by means of DH-4's. If the Marines in Haiti are able to put successfully from the air we will concede them the best golf bunkers on record.

Sgt. Straw states that he has openings in the station and any one wishing information about the Marine Corps can get same by writing or calling on Sgt. Straw at Dulkois, Pa.

Fairy Palaces.

Do you know what fairy palaces you may find of beautiful thoughts, proof against adversity? Bright fancies, suggested memories, noble histories, faithful records, even a glimpse of perfection and truth, which come to you in the form of a thought, which you can hold in your hands for your own use and pleasure.

Fiber Sponge.

The Loofah sponge, now in general use, is made from the network of fiber from the inside of the gourd, probably one of the oldest vessels known to man. Japan furnishes the best sponges of this kind. The fiber used in the Loofah sponge is dried thoroughly, after which it becomes wholesome and crisp.

Using Watch as Compass.

With a watch flat in the hand, the hour hand pointing toward the sun, the point on the circle half way between the hour hand and XII, will be directly south in the northern hemisphere and directly north in the southern.

Progress Editorial For Women

LET 'EM TRY IT

By FLORENCE DAVIES

A young engineer once remarked that if Henry Ford had had a technical training he would have known better than to have attempted some of the things which he has done successfully.

So much for ignorance. It's a great thing, some times, not to know what you can't do.

So much for youth. It takes youth not to have sense enough to know that it can't do things. The result is that more than half the time youth goes in doing regardless of "can" or "can't."

When a cat never to have to learn the lesson of "a thing ventured nothing gained." For in one realm at least they are the greatest adventures on earth. That is the realm of clothes.

If anyone had asked you ten years ago if women would ever walk out on the street in mid-day, wearing dresses with no sleeves at all, he would have been laughed at. But in the realm of dress at least a woman's motto is "we'll try it once."

Why is it then, that women are so slow to try new ways in the house hold?

It was a good thing for Henry Ford that he didn't know any better than to try some of the things he did. A good thing, too, that he was old enough not to pay attention to people who stood around and said "It can't be done" just as so many of us say to unpractical youngsters.

It takes a lot of self-control sometimes not to tell children that they can't do perfectly impossible things. But one thing is certain. Children who are always told that they can't accomplish things seldom go far.

"Try it, son, try it," may not result in making another Henry Ford of your small son, but it will make a more successful citizen than a continual chorus of doubt.

"I wouldn't try that," is a phrase that never made any great men unless it served to stir a youngster's antagonism just enough to make him do it in spite of you.

A brown eyed boy of 12 announced solemnly that he is going to be a great editor. What's the use of telling him that one doesn't get to be a great editor by taking thought? What's the use of saying "How are you going to get the job?" How little does he know the long route one travels before he finds himself a truly great editor. If he knew the difficulties in the way he might never begin.

Whatever you do, don't tell him Let him find them out for himself. Youth has a way and perhaps to your surprise he will never find them. Perhaps, like Henry Ford he will attempt things a wiser person would know couldn't be done—and then do them.

Mrs. Roy McMullen and Mrs. J. W. Rafferty of Clearfield spent Wednesday with friends in Curwensville.

A Case of pleasing everybody

Young and old—your family and your guests—all will enjoy this pure and wholesome beverage that delights taste and quenches thirst. Keep a few bottles ice-cold in your refrigerator, and you'll always find it convenient and easy to please everybody.

WORLD'S SMELLIEST FLOWER
London (United Press). — The world's largest flower is driving crowds away from the famous Kew Gardens, up on the Thames. Its smell is as powerful as its build. The new flower is from Sumatra. It shoots directly up from the ground to a height of seven feet. Its odor shoots all round the country side and is officially described as a mixture of rotten fish and burnt sugar.

Beauty Recipe.

Cheerfulness and content are the most beautiful and most precious of youth's possessions. To keep up a good cheer is the key to beauty.

Curwensville's Column

Curwensville kennel of Yellow Dog met in session at the Moose hall last evening and carried out all sizes and breeds were there in abundance. The net was spread and whelps from Phillipsburg, Ramey, Clearfield and Curwensville were swept into the howling circle of dogdom. The strange dog soon became reconciled to their new mates and now are just as anxious to be the cinnamon cubs as all good and true Yellow pups are surprised to do. After the initiatory ceremony were completed, the all-important question came up, "Will the Yellow Dog organization of Curwensville stage and undertake the responsibility of a Labor Day celebration?" It has been earnestly agreed that they

on Monday. Rev. Father Lynch will officiate at the services.

Curwensville kennel of Yellow Dog met in session at the Moose hall last evening and carried out all sizes and breeds were there in abundance. The net was spread and whelps from Phillipsburg, Ramey, Clearfield and Curwensville were swept into the howling circle of dogdom. The strange dog soon became reconciled to their new mates and now are just as anxious to be the cinnamon cubs as all good and true Yellow pups are surprised to do. After the initiatory ceremony were completed, the all-important question came up, "Will the Yellow Dog organization of Curwensville stage and undertake the responsibility of a Labor Day celebration?" It has been earnestly agreed that they

social and fraternal society take charge of things on Labor Day at Curwensville and arrange and carry out a program that can be enjoyed by all without bringing into it any of the usual frills or feathers. The question was discussed at length and the sentiment among the leading dogs of the pack was that Curwensville kennel take hold of the matter and push it through with a whoop.

Two contracts have been let by school board for the heating and plumbing of the old Quaker church which will be used as an extra school room. The Curwensville Heating and Plumbing Company have the heating while Frank Hastings has the plumbing.

Lessons in Violin, Mandolin and Voice will be taught in classes in the basement of M. E. Church, Curwensville, by Prof. F. A. McDivitt, who has been teaching piano and voice individually here. All those interested can see Mr. McDivitt at the church Monday, July 30th, from 10 a. m. to 12 m.

\$7,500 FOR A TOE
Apo, Ariz., (United Press). — A big toe is worth \$7,500, according to M. W. Seftord, who placed that value on a toe he lost in an accident at the New Comedia copper mine when he brought suit against the company.

Famous Kisses.
The first kiss. Molasses kisses. A kiss in the dark. The kiss of the pool balls. A kiss on the beeper. Stolen kisses.

First Water Wagon Now In Museum

Madison, Wis., July 27 (United Press). The original "water wagon" has been saved from dusty oblivion. The ancient survey, side-lights, canvas top and all, in which Frances Willard used to ride about the middle west leaving in her wake the first spotless, white badges of the Woman's Christian Temperance Union, now rests in the museum of the Wisconsin Historical Society.

It was presented by members of the Beloit, Wis., W. C. T. U. There was no cash of nothing who had it on a rainy day. Anna Jordan, president of the world W. C. T. U., and "Verna's" eldest companion on the old survey, spoke briefly of the life of its owner, the late Frances Willard.

The old survey, side-lights, canvas top and all, in which Frances Willard used to ride about the middle west leaving in her wake the first spotless, white badges of the Woman's Christian Temperance Union, now rests in the museum of the Wisconsin Historical Society.

RUBIES FOR JULY RINGS

If you are going to make a gift of a ring or a brooch or any bit of personal jewelry which you wish to have symbolic of the birth month of the recipient, the ruby's the thing for July.

And we have here some particularly nice stones right now. And if we haven't just what you want we will secure it for you in the shortest possible time.

Many folks for whom we have gotten such stones tell "that they" are mightily pleased with their purchases and we know that we can please you too.

W. W. O'BRIEN

Miss Willard driving on an Evanston street. The rakish tilt of the top is unmistakable, Brown says.

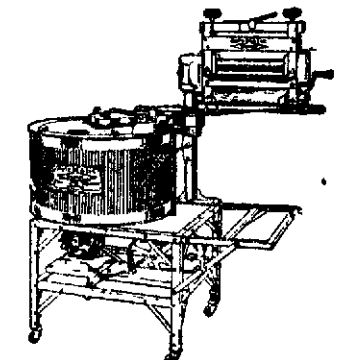

The carriage rests beside another distinguished equipage in the halls of the museum. The coach in which Daniel Webster took his afternoon drive will be its companion-piece.

THE FAIR SUZANNE'S NAME
London (United Press). — Sometimes the low-brows are right. Miss Suzanne Lenglen's last name is pronounced Leng-len, with the "e" as in tennis, and not "Long-long," she told listeners in when she broadcasted to them here.

Managing a Fortune.
We should manage our fortune like our constitution; enjoy it when good, have patience when bad, and never apply violent remedies but in cases of necessity. — Rochefort

Woodruff Declares Snyder Had No Right To Stop Pay

Harrisburg, Pa., July 27. State Treasurer Snyder has no right under the existing law to refuse payment of salaries on any expenditure which has not been approved by the Auditor General, Attorney General, Woodruff declared today in making public the Administration's position in the controversy over the Administrative Code.

The payroll hold-up was also held "illegal," said Woodruff. Under the old law, the Treasurer and Auditor General were to report to the Senate the amount of money to be paid to the State employees. Snyder's refusal to pay the salaries of the State employees is a violation of the law.

Woodruff explained that the law requires the Treasurer to pay the salaries of the State employees. Snyder's refusal to pay the salaries of the State employees is a violation of the law.

The Attorney General and State Treasurer continue their game of "hide and seek" in their having seen the other in some of the offices in the State House. Snyder left the city yesterday just as Woodruff arrived at the Capitol.

The way is still open to the State House without the necessity of going to court, said Woodruff. "I think we are afraid the act is unconstitutional. We want to help the innocent people who are deprived of their pay, and in addition do the best thing for the Commonwealth."

EVERETT TRUE

ST. MARYS MAN IS VICTIM OF AN ODD PAINFUL ACCIDENT

St. Marys, Pa., July 27.—Louis Lecker of Munster Road, near St. Marys, is the Andrew Kauf Memorial Hospital at St. Marys in a very critical condition. His left hand is severed at the wrist, the right hand is crushed, the left leg broken below the knee and he is bruised about the body, with probable internal injuries, as a result of an accident at the Niles Lamp Works, here, on Thursday morning.

Lecker, who was employed on the collar excavation job at the Niles plant, went into the pit after a charge of dynamite had been set off to see what had resulted. A big rock which had been excavated from the cellar, backed down the incline into the hole. The brakes on the machine must not have held, for it crashed into the excavation so rapidly that Lecker did not have an opportunity to get out of its way. He was pinned between the back of the truck and the end of the pit where the blasting was done.

NOTARY TO MEET IN TORONTO IN COMING YEAR

Chicago, July 25. The council of Notary International, meeting here today, decided to hold the next Rotary convention at Toronto, Ontario, Canada during the week of June 16, 1928.

London Invaded by an Army of Americans

Stattle the Natives When They Meet Friends And Bootleggers From Across The Atlantic

By Chas. McCann
(United Press Staff Correspondent)
London, July 27 (United P. C.).—This is American summer in London. The trans-Atlantic tourist movement has passed the proportions of an invasion and become an occupation. Hotels are filled, boarding houses are overflowing. Horn-rimmed men and flat-heeled girls crowd the streets. Soda fountains and peanut merchants are enjoying a prosperous season on their first.

Prohibition restriction in the States have caused a lot of comment and some knocking; Englishmen cannot understand a few people letting anything come between the cup and the lip without a struggle.

But while British sailors were marching in the Portland Fourth of July parade, London hotels, newspaper offices and private homes were flying the stars and stripes; and at the hotels Britons helped to celebrate the anniversary of American independence from British rule.

The London county council gave hotels an extra two hours of drinking and dancing for the occasion.

All Kinds of Americans. Every sort of American is here. Secretary of the treasury Mellon and Secretary of Labor Davis represented the government. Senator Broome is here in the interest of the common people. There are scores of other senators and representatives, and it would probably be as nearly possible to raise quorum in either House here as it would be in any quarter of the United States.

There are thousands of ordinary citizens, and they run into their neighbors and their bootleggers with shouts of delight that still startle the natives, who disapprove of anything as a matter of principle, and don't know what a pal an honest bootlegger can be.

Americans can—and do—go to American shows and see American companies. They dance to the music of Paul Whiteman's and Paul Shubert's bands. They occupy whole sections of the stands at any sporting event.

ROMANCE CHOCOLATES

TAKE THE GREAT EATING YOU EVER TRIED. And you can get Romance Chocolates Anywhere.

watch Americans vigorously bring home the bacon.

Johnson and Hunter fought out the final in the All-English tennis championship; Americans were runners-up in the open golf; Hoover and a half dozen brother-lawyers were competitors in the diamond sculls at Henley.

Pay Same Prices. Americans pay same prices at hotels as do Englishmen. There are Anglo-American unweaving, Anglo-American speeches, Anglo-American dinners, informal Anglo-American reunions at "pubs" and cocktail bars, and at the rougher and wetter cafes, occasional Anglo-American fights.

There is baseball at the Fulham football grounds, and Englishmen who wonderingly recognize baseball as what their children play just after they have learned to walk and forget before they have learned to run, go out to the games just to hear the boys yell. It doesn't mean anything to them; they like the strange noises. They listen and go back home and start a discussion in the newspaper about it.

This week's discussion is as to the meaning of "attaboy." The natives have got to it so far that it is a contraction of "At 'em boys."

The Classic Dutch. "Merely a tip-of-the-tongue!" said the meat man as he picked up the tongue that had slipped from his hands.—New Haven Evening Register.

Dip Keys in Oil. Dipping keys in oil occasionally will keep locks in order. All hinges must be oiled with an oil feather now and then to save the annoyance of breaking doors.

SOUNDS LIBELOUS

London (U. P.)—Heard during an American tourist party's rubberneck tour of London:

Whaddya say is wuz? House o' Parliament? Means Congress, don't it? Yeah, means Congress, Lee. A lie they'd use n' English for it. Thasari, Parliament's French. Yeah, French. Th' English 'r too tony anyhow, always draggin' in French handles. Yeah, thasari, always draggin' 'em in.

J' notice they gotta lotta French names on'a menu at 'hotel?

Yeah, an' fish f' breakfast. S'awful, ain't it?

Uh-huh, 'd rather eat 'n Muscatine any day.

Yeah, so'd I, or in Duluth.

Yever in Duluth?

No. S'nice town, I guess, but I gotta live around water s'why I like Muscatine. S'right on'a river.

Whaddya say isswuz?

Westminsters Abbey.

Yeah?

Yeah, Westminsters Abbey. Well, Duluth ain't so bad. S'on'a lake y'know. Y'oughta come up some time.

Yeah'd like to. Whaddya say isswuz?

Mrs. J. M. McCracken and daughter Velma, and son Harry motored to Portage Wednesday, returning home Thursday. They were accompanied back by Mrs. McCracken's two grandsons, Willis and Luther Ritchey, who will spend a few weeks vacation with their grandmother.

Miss Marguerite H. Armstrong of Nichols street, has gone to Newberry and Williamsport to spend her vacation with relatives.

Applies to Home, Too. It is a good rule to endeavor hour by hour and week by week to learn to work hard. It is not well to take four minutes to do what you can accomplish in three. Learn to work intensively.—Charles W. Elliot.

WARD FINALLY IS INDICTED IN THE PETERS MURDER

White Plains, N. Y., July 26.—The son of a millionaire, whose wealth was alleged to have made him immune to justice, was re-indicted today on a murder charge and locked up with the option of bail after being arraigned through the high courts of New York state.

The amount Ward-Peters' money was dug out of the case was to be spread before a jury in re-indiction of the charge that justice, like Monday's "ladies of the evening," is only a friend and playmate of the rich.

Walter S. Ward, son of George S. Ward, the black and bread and thought of magnate of several large cities, was indicted in a cell in the Westchester county jail to await trial on September 4. He was indicted as he picked up his next trial and left the court room the same morning smile that he turned on the detectives who swarmed over the Westchester hills in May, 1922, looking for the solution of the Clarence Peters murder. His attorney, who had fought the attorney general of New York state all the way up to the governor's office, with him, Ward seemed confident that this time the state would be beaten in its actual showdown on the evidence.

The first time he was indicted for first degree murder shortly after the killing of Peters, the prosecution failed to prove the charge and eventually granted the indictment to be dismissed without trial. The action resulted in a rumble of indignation that grew steadily in volume until, a few days ago, a veritable storm crashed down on the desk of Governor Al Smith and he ordered the attorney general to ascertain whether the facts deserved submission to a new grand jury.

Clarence Peters had been a sailor, U. S. N., with no very admirable record and also had been accepted on conditional enlistment in the marine corps. He was broke and poorly equipped at the time when Ward, according to the admission of his counsel, more than a year ago, felt compelled to kill him with a pistol bullet on the lonely Kenosia reservoir road. Ward never did particularize, but he set up a general story to the effect that Peters was the agent of a gang of blackmailers.

Ward had paid large tribute to this gang, as his story ran, to suppress information they claimed to have, concerning an unidentified member of the wealthy Ward family. There came a demand for another large sum and letters appeared in the negotiations in intermediary. Ward cabled his father in Paris requesting money, but when the wealth father learned that Ward had the money for "hush" purposes, the answer came back: "Not one cent for tribute."

The gang never was identified. Detectives claiming to know every thing and blackmailer on Broadway said the

Strange Rivals

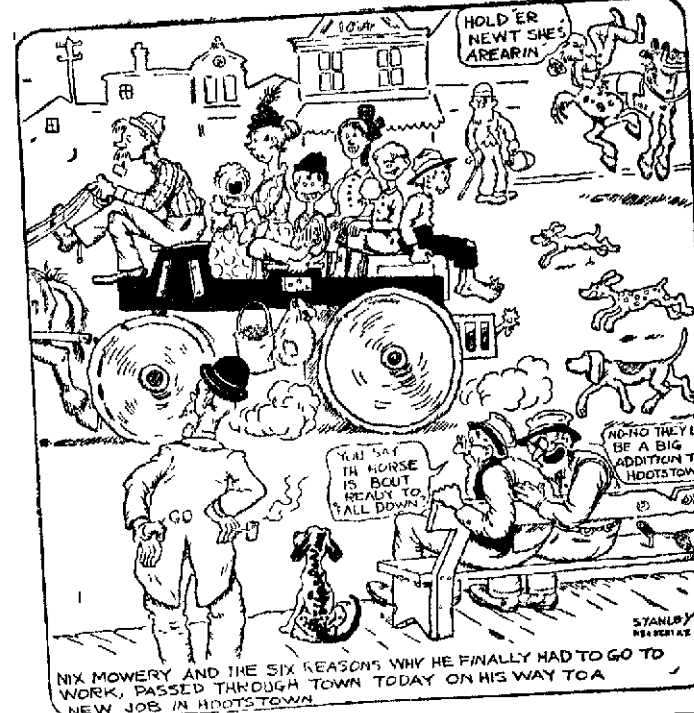

Maggie Riley, of the famous Devil Dog baseball nine, shakes hands with "Cookey" Hamford, rival first baseman of the House of David, before a recent game at the Polo Grounds, New York.

characters were all faked. When the attorney general tried to examine the cablegrams exchanged about that time between George S. Ward and his two sons, the Ward attorneys fought all the way to the highest state court. The attorney general contended that the cablegrams would show there was such heroic defiance from the father of Walter.

During the renewed investigation a man appeared in England who said he and his wife and daughter were transported out of the United States by agents of Walter Ward. He declared his wife had been schooled in hours by Ward's representatives until she was almost hypnotized into the belief that Clarence Peters was a degenerate. The wife, in return for promises of money, had sworn to a false statement that Peters was the father of her daughter's child, the Englishman declared, but after the family had broken up their American home and moved back to the old country—at no expense to themselves—the expected remittances did not arrive and therefore he wrote his story.

THE OLD HOME TOWN — By Stanley

PIKES PEAK CLIMB
Colorado Springs, Colo., July 27 (United Press)—Entry is being made in daily for the annual running of the hill climb to the summit of Pike's Peak today. Owing to the ruling of the American Automobile Association, which has all freak cars and those of extremely light weight out of the event, the race this labor day promise to be the best since its inception in 1916. The course which is slightly more than 12 miles from the base to the top of the mountain, 14,100 feet above sea level is in perfect condition.

Reverses
One of the hardest things to understand is how the fellow who used to slide to work on a street car—and got there on time—now seems to think he has to drive past all the street cars in town to get down to work at the same hour.

CONSTIPATION
A cause of many ills. Harmful to elderly people. Always relief in taking **CHAMBERLAIN'S TABLETS**. Easy—pleasant—effective—only 25c.

TRUCK REPAIR SERVICE THAT SAVES TRUCK OWNERS MONEY

The truck service that we are offering to truck owners is decided saving for them inasmuch as the thing that might quickly develop into the big thing is discovered and repaired before there is a chance to put your truck out of commission for several days.

If you own a truck, you're losing money every day you do not take advantage of our inspection service.

Ask Uncle Sam to Pay Big Sums to Inventors

Philadelphia, July 27. (United Press).—Out of the world war has arisen the biggest patent litigation in the history of the country, which will cost the United States government many millions of dollars if patents on mobile heavy artillery are held valid by the federal courts.

Several suits have already been filed, one in this district against the Baldwin Locomotive Works, and others are to be started in various parts of the country.

While corporations are named as defendants, the Government, it is stated, will ultimately have to pay any damages that are awarded, because it purchased manufacturers of war armaments against damages and patent claims.

The plaintiff in the suits is Lawrence W. Lullien, who claims that he and Cecil T. Dawson invented improvements on gun mounts and other mobile heavy artillery which were used extensively and successfully in the war. Dawson assigned his rights in the inventions to Lullien.

The suit against the Baldwin Locomotive works alone is \$16,000,000 in royalties involved and if Lullien's patents are sustained, the Government would have to pay this sum. The importance of the suits to the government and the magnitude of Lullien's claims were disclosed when counsel for the Baldwin company asked the Federal Court here for a ninety day extension in which to file an answer to Lullien's suit.

"This is no ordinary suit," the attorney said. "But is one of the biggest litigations in the history of the co-

untry." He explained that the company needed the additional time to obtain the results of a world wide investigation being made by the department of justice to ascertain whether the invention of Lullien is an original one, or whether he and Dawson gained their idea from patents, which were never put in practical use.

For months it was learned, department of justice agents have been digging into the archives of patent office of all the European countries for information relating to mobile heavy artillery and have not yet completed their investigation.

Joy of the Work.

On the higher levels there is no adaptation; our selfish desires are at odds with nature, we are out for a good time and get no response; but the key-note of the higher level is joy—the joy of the laborer who has found his work of the lover who has seen his object, of the hero who has received his commission.—L. P. JACKS

Tap Root From Poison Root.

Few people who enjoy tapoca put the realize that they are eating a product of the poisonous cassava root. In its natural state this root is extremely bitter and harmful because of the hydrocyanic acid that it contains, but when heated it becomes palatable and its poisonous qualities are readily dissipated.—Popular Science Monthly.

Contrast of English Counties.

Lincolnshire is the fattest and Westmorland is the poorest in the English county.

PLAYGROUND ITEMS

The playground horseshoe game continues interesting. East End is still good with five victories and Witmer next with three. Witmer and West Side have two old games, a rainy day and a forfeit, which should be played off as soon as possible which will allow the sheet as it stands now. Witmer is coming up well, tumbling Redeville in games 3-0. East End pitched West Side yesterday, winning four games straight with ringers to Delancy's credit. Undercoffer and Conner, East End pitched Jay and Warner, Redeville on Wednesday with the former team still in the lead.

This afternoon's excitement in the great American game and there should be some interesting reports. Most of the teams have been raining pretty constantly and some good baseball is developing.

Habit of the "Tractor Rat."

The tractor rat is the common wood rat, the bushy-tailed rat of western and northern America. This rat does make a practice of leaving something in place of food, etc., that it may have stolen. This is not an intelligent act on the part of the rat, however, but is due to the fact that the rat sees the food when it is out of its mouth, when it generally does not find it on the food.

HORSESHOE NEWS

The Garry pitchers will surely be here tomorrow and it is expected the Erie will start soon after three o'clock on the local street courts which will be conditioned for the occasion. Out-of-town horseshoe men are a new deal and beyond the fact the local defenders certainly are good there is no speculation as to the comparative merits of the visitors. One thing is sure and that is the game will be well worth seeing. As it will take some time to pitch seven games even on two courts, there will be something to see from three to six continuously and perhaps after. Admission is a quarter and considering the expenses this is an important item in the case.

Cat Was Taking Music Lesson. One morning while down in the basement I heard someone playing the piano. Knowing my daughter had left for school, I did not know what to think of it. It sounded like someone was trying to play that did not know how. I went upstairs to investigate, and on arriving I found the cat jumping around on the keys.—Chicago Journal.

WORKMAN'S OPEN NEW MEAT MARKET

The new sanitary meat market of the Workman's Grocery Company, was opened for business yesterday. The new market contains the latest and most up-to-date equipment and is the finest market in this entire region. It is sanitary throughout, contains its own refrigerating plant and is a credit to the town.

Avoid Misunderstandings. Do not allow a trivial misunderstanding to cause the blossoms of spring which are put forth and blight of winter.—Franklin

'The Little Church Around the Corner'

From the play by Chas. E. Blaney
Story and scenario by Olga Printzlau

A story of Conflicts and Contrasts—a powerful theme that reaches way down into the souls of men and women.

Don't fail to see the pictures of the horrible Mine Disaster taken near Greengburg. It is vividly depicted in this picture.

Gossip For Tonight's Tea Table

Mrs. John Murray of Curwensville stopped in Clearfield yesterday.

James M. Ruffner of Madera transacted business in Clearfield yesterday. Mr. and Mrs. George Raymond and children and Mr. McMuldren returned to their home in Allston, D., after spending some time with Mrs. Ernest Swales.

Mrs. Kathryn Hardisty of McKeesport is the guest of Mr. and Mrs. Ted Watson.

John W. Hurd, of LaJosa; Thomas Bishop, of Berwindale; Leonard J. Trumbull of McKees Mills, transacted business in Clearfield Thursday.

Mrs. Elizabeth Reed of New York is spending the next two weeks with her parents, Mr. and Mrs. George Reed.

Mrs. M. C. Dinger and sister Morriadae stopped in Clearfield yesterday.

Mrs. Hugh Mullen, of Woodland, stopped in our stores yesterday. Mrs. Catharine Hutton of Clearfield transacted business in Clearfield Thursday.

Frank S. returned yesterday from a business trip to New York. Mr. and Mrs. E. V. Brown and sons are visiting friends and relatives at Harrisburg, Carlisle and Philadelphia. Miss Maud Powell's Sunday school class of the Trinity Methodist church, Clearfield, will visit View farm yesterday.

W. H. Thompson, of LaJosa; J. Williams, of Johnstown; Mr. and Mrs. Grant Gowen, Chest township; William V. Dotto, of Glen Hope, transacted business in Clearfield yesterday.

Mrs. Charles Jaro and son Philip of DuBois, spent yesterday with Mrs. Jacob's mother, Mrs. George Snyder.

Miss Augusta Connolly, who spent the past five weeks at Clifton Springs sanatorium, has returned very much improved in health.

J. A. Fletcher left yesterday for Whitefish, Iowa, where he will visit his brother for some time.

Four and Twenty Blackberries Baked in a Pie

—and as many more as you need of luscious, juicy berries, sweetened to taste, and baked between a top and bottom crust made tender, flaky and "melty" with

Nucoa

"Finest Table Quality"

Put Nucoa on the table before the king of your table—it is the only berry-cupped, juicy Nucoa ever made with the outside of confectionery sugar, flavored and made a delicate pink with a little of the blackberry juice. Child is merry-coldness while the pie is baking.

If you would enjoy your daily bread, let ever-fresh NUCOA be its spread.

It's the greatest candy you can secure anywhere. This home made candy of ours. It is made under my personal supervision and you will find that there is a kind that will make a particularly big hit with you or your best girl.

STEWART'S DRUG STORE

(CLEARFIELD, PA.)

Mrs. Evalyn Rogers has returned to her home in Erie, Pa., after spending some time in Clearfield and vicinity. Her sister, Lucy Stone, of Woodland, accompanied her home for a lengthy visit.

Charles Lachat, a former resident who has been located with the New York Central Railroad at Jersey Shore for several years, was in Clearfield yesterday. He was accompanied by his two sons and they expressed themselves as being both pleased and surprised at the substantial growth of the town since they lived here.

Mrs. Port Harley visited at Emory Hummel's yesterday.

Miss Elizabeth Usher, who was operated upon for appendicitis at the Clearfield hospital yesterday, is getting along finely today.

Mr. and Mrs. W. W. Boob of Allentown, spent Thursday visiting with the latter's sister, Mrs. M. J. Fiegal, at Woodland.

L. G. Darr and Harrison Strav transacted business in Harrisburg Monday and Tuesday of this week.

BETTER KIDDIES WHEN FED OUR MILK

Any kiddie that is being fed our milk regularly, is a better kiddy mentally and physically. The undernourished child, even the given what looks to be the food for him or her, is peevish and fretful. Possibly it is not getting the proper nourishment—the kind it would be getting if our milk were the main article of diet.

When the kiddies get our milk they are getting all the goodness that Nature put into the milk and there is usually a marked change for the better right away.

Let the kiddies have plenty of our milk and they will thrive.

Clearfield Dairy Co.

PRESCRIPTIONS ACCURATELY FILLED
